

Which coupon is the BETTER DEAL?!

You are shopping at your local sporting goods store for equipment for your upcoming baseball season. You must decide which coupon would give you the "better deal" on each item below - the **RED** or **BLUE** coupon.

1. You desperately need a new catcher's mitt before the season starts. The mitt you pick out costs \$43.99. Which coupon should you use to purchase the catcher's mitt?
2. The bat you used last season is now too short for you, and you need the next size up in weight and length. However, that bat is expensive and costs \$159. Which coupon would save you the most money on your new bat?
3. Your feet have grown a ton since last season and you need to size up two whole cleat sizes! The cleats you want to buy cost \$49.99.

SHOW YOUR WORK below and then explain why either coupon (red or blue) could be used in this scenario.

 Lu,2021-06-16 This book s primary objective is to educate aspiring finance professionals about mathematics and computation
 in the context of financial derivatives The authors offer a balance of traditional coverage and technology to fill the void
 between highly mathematical books and broad finance books The focus of this book is twofold To partner mathematics with
 corresponding intuition rather than diving so deeply into the mathematics that the material is inaccessible to many readers
 To build reader intuition understanding and confidence through three types of computer applications that help the reader
 understand the mathematics of the models Unlike many books on financial derivatives requiring stochastic calculus this book
 presents the fundamental theories based on only undergraduate probability knowledge A key feature of this book is its focus
 on applying models in three programming languages R Mathematica and EXCEL Each of the three approaches offers unique
 advantages The computer applications are carefully introduced and require little prior programming background The
 financial derivative models that are included in this book are virtually identical to those covered in the top financial
