The Wilderness Of Grief Finding Your Way Understanding Your Grief:

The Wilderness of Suicide Grief Alan D. Wolfelt, 2010-09-01 Presenting the idea of wilderness as a sustained metaphor for grief this compassionate guide explores the unique responses inherent to the grief felt by those who have experienced the suicide of a loved one and offers information about coping with such a profound loss. Likening the death of a loved one to the experience of being wrenched from normal life and dropped down in the middle of nowhere the handbook employs 10 touchstones or trail markers that survivors use to begin to make their way through the new landscape. Each touchstone gently guides readers through the entire grieving process and includes topics such as dispelling misconceptions regarding suicide, exploring feelings and embracing the uniqueness of a loss. **The Handbook for Companioning the Mourner**

Alan Wolfelt, 2009-04-01 Partly a counseling model and partly an explanation of true empathy this handbook explores the ways companionship eases grief. For caretakers who work with grieving people or for friends and family just hoping to stay close 11 tenets are outlined for mourner led care. These simple rules call for understanding another person's pain, listening with the heart rather than the head, not filling up every minute with words, respecting confusion and disorder, and relying on curiosity rather than expertise. Healing the Adult Sibling's Grieving Heart Alan D. Wolfelt, 2008-11-01 Compassionate and heartfelt this collection offers 100 practical ideas to help understand and accept the passing of a sibling in order to practice self healing. The principles of grief and mourning are clearly defined accompanied by action oriented tips for embracing bereavement. Whether a sibling has died as a young or older adult or the death was sudden or anticipated this resource provides a healthy approach to dealing with the aftermath.
