The Webcomics Handbook Brad J. Guigar, 2013 The long awaited sequel to the seminal How To Make Webcomics this massive tutorial based on Brad Guigar's four years of writing at Webcomics.com covers the art business and promotion of digital comics. With chapters devoted to Web site basics, digital downloads, social media advertising, business and much more this book is the perfect blend of step by step guidance and friendly hard won experience from one of the very first cartoonists on the Web.

How Comics Are Made Glenn Fleishman, 2025-06-03 No one before now has written a history of the comic strip as a technological artifact not at least in such depth and on such a sound foundation of research. Michael Chabon author *The Amazing Adventures of Kavalier Clay* If you love comics you'll love this visual history of comic strips featuring all of the methods, techniques and wizardry that made the funny pages such an important staple of American life. Featuring interviews with dozens of the century's most famous cartoonists and hundreds of rare archival images, *How Comics Are Made* covers the entire history of newspaper comics from a unique angle: how they were made and printed. This book combines years of research and dozens of interviews with cartoonists, historians and production people to tell the story of how a comic starts with an artist's hand and makes its way through transformations into print and onto a digital screen. You'll see reproductions of art and artifacts that have never appeared in print anywhere and some historic comics will appear for the first time ever in any medium in this book. And you'll find out about metal etching, *Dragon's Blood* a real thing, flong also a real thing, and the massively almost impossibly complicated path that original artwork took to get onto newsprint in the days of metal relief printing. The book is divided by time and transitions from the start of consistently appearing daily and weekly comics in newspapers, *The Early Days* From the *Yellow Kid* in the 1890s to the 1910s Syndication in Metal. When it became affordable to make hundreds or thousands of copies of daily strips to send around the country or world from the 1910s to 1970s Flatland Newspapers switch from relief to flat printing and the shift to purely photographic transformations from the 1950s to the 1980s Pixel Perfect. The transition from photographic to digital from scanning to digital creation from the 1970s to 2000s and through the present day Webcomics and Beyond. Look ma no ink! Digital comics read online and sometimes put on press to make books. Each section features interviews with artists, reproductions of original cartoon art, printing and coloring artifacts and the way cartoons appeared in print or on screen.

Tales From The Con: Year Two Brad Guigar, 2015-04-01 TALES FROM THE CON YEAR 2 the irreverent webcomic that has appeared on the Emerald City Comicon website since 2012 takes another look at the idiosyncrasies of life at comic conventions with Year 2.
