The Python's Back Andrew Strathern, Pamela J. Stewart, 2000-05-30 Building on an incipient tendency to make comparisons between Indonesian and Melanesian cultural themes this study makes a fresh comparison of themes that interrelate ethnographies of eastern Indonesia for example Sumba Flores Irian Jaya the Bird's Head and the Highlands of Papua New Guinea Melpa Duna The themes chosen include slavery and personhood kinship and commoditization cassowary myths sky beings witchcraft female spirits and historical changes Such a comparative sweep of themes has not been attempted before for this part of the world and the thematic approach adopted also makes it possible to examine topics both in the abstract and in terms of historical time The comparisons made illuminate both differences between the cases chosen and particularities of each case bringing together Indonesian and Melanesian ethnographies in a new way that transcends the conventional boundaries of regional analysis
