Computers and Society Ronald M. Baecker, 2019-04-24 The last century has seen enormous leaps in the development of digital technologies and most aspects of modern life have changed significantly with their widespread availability and use. Technology at various scales: supercomputers, corporate networks, desktop and laptop computers, the internet, tablets, mobile phones and processors that are hidden in everyday devices and are so small you can barely see them with the naked eye, all pervade our world in a major way. *Computers and Society: Modern Perspectives* is a wide ranging and comprehensive textbook that critically assesses the global technical achievements in digital technologies and how they are applied in media, education and learning, medicine and health, free speech, democracy and government, and war and peace. Ronald M. Baecker reviews critical ethical issues raised by computers such as digital inclusion, security, safety, privacy, automation and work and discusses social, political and ethical controversies and choices now faced by society. Particular attention is paid to new and exciting developments in artificial intelligence and machine learning and the issues that have arisen from our complex relationship with AI.

Applied Marketing Daniel Padgett, Andrew Loos, 2023-10-03 *Applied Marketing* 3rd Edition is a comprehensive yet concise modern marketing course that blends solid academic theory with practitioner experience to help students master the core concepts, develop a practical understanding of how to apply marketing principles and gain perspective on how top marketers operate in today's business world. Co-authors Dan Padgett, an academic, and Andrew Loos, a practitioner, blend solid academic theory and agency owner experience to offer students an insider's view of marketing by bridging the gap between marketing principles taught in the classroom and those same principles as applied by business professionals. Taking a student centric approach by using digital assets to teach students as well as having students use digital resources for learning, encourages students to develop their critical thinking skills by applying core concepts to real world scenarios.
