

# Five tricks to help you perfect your Instagram captions

## Make a good first impression

When writing an Instagram caption, the goal is to hook users into clicking that 'more' link. Therefore, your first line needs to be **striking** and **magnetic** enough to pull them in.

So, entice them with an emotive statement and pique their interest with a powerful punchy line. Or perhaps you can create curiosity with a thought-provoking question?

20

## Add some pizzazz with personality

Social platforms give organisations the opportunity to solidify their **brand identity** and **communicate** with target audiences on **their level**. Therefore, your caption needs to use **tones** and **elements** of personality that make it **interesting** and **relatable** to users while giving them insight into your brand.

This allows you to create **engaging** messages that are **memorable** to your followers and **resonate more** with them.

## Create a mood with emojis

One way that you can make your caption more **quirky** and **signal the tone** of your messaging is by making use of complimentary emojis.

Emojis also allow giving your captions another **visual dimension**, making it perfect for a visual platform like Instagram.

## Spread the word with hashtags

Hashtags are a fantastic way to **maximise the reach** of your post and, ultimately, **enhance your discoverability**. But using too many of them can come across as 'spammy' – which discredits your business and makes your page unfavourable to the algorithm.

That's why Instagram recommends only using **three to five**.

124

## Call it

Call to actions help you to guide your users by **encouraging engagement** and **steering traffic** to where you need it.

So, your posts should contain at least one call to action phrase that motivates your users to "like", "comment", or "visit the link in bio".

**Chronicles of Care: A Design History of the COVID-19 Virus** Paul A. Rodgers, Fernando Galdon, Craig Bremner, 2024-04-16

The Covid 19 crisis and the designed interventions that the authors have catalogued in this book prove definitively that design does care. The authors documented this as it evolved every day from the 1st January 2020 to 31st May 2020 inclusive. Then they looked at all of this care and caring from the point of view of design and by the sheer volume of design interventions they have documented illustrate that design is good in a crisis. What the Covid 19 pandemic illustrated is that for the first time in modern history capital was totally irrelevant. Money could not save your life. Only design could. Rapidly designed masks, shelters, hospitals, instructional posters, infographics, dashboards, respirators, sanitisers, virtual and local communities emerged to save us. From January 2020 design became king. The Covid 19 global pandemic presented an ontological reality: design is more than margins or profit. In fact, design became extremely valuable when it stopped concentrating on those things and started to care about peoples' lives. This brief episode in history is still repositioning the status of design and reconfiguring its signifier from consumption to care. The contents of this book cover the outbreak, lockdown and the beginning of the reopening in the UK. In between the book functions as a history of pandemic crisis design interventions. As such it is a research in the moment project where we have illustrated our thoughts and insights in tables, charts and diagrams. We have accepted all design interventions as valid and given them the same role and status by presenting each of them in a standard format. No curation, No selection, No position. The task of critical analysis must follow, perhaps by us, certainly by others.
