Modular Programming of Adaptive CAX Manufacturing Process Chains (E-Book) Gunter Spöcker, 2016-11-07 The manufacturing industry is undergoing major changes due to current trends like mass customization and Industrie 4.0. However today's CAX systems and approaches are not suitable to handle adaptive CAX process chains. To overcome this situation and to close the gaps between the existing CAX environment and the requirements for the manufacturing of the future a modular approach based on extended function blocks is presented. The proposed approach is verified based on the use case of a worn out BLIR segment by using repair features.

AMST'05 Advanced Manufacturing Systems and Technology Elso Kuljanic, 2007-03-23 Manufacturing a product is not difficult; the difficulty consists in manufacturing a product of high quality at a low cost and rapidly. Drastic technological advances are changing global markets very rapidly. In such conditions the ability to compete successfully must be based on innovative ideas and new products which has to be of high quality yet low in price. One way to achieve these objectives would be through massive investments in research of computer based technology and by applying the approaches presented in this book. The First International Conference on Advanced Manufacturing Systems and Technology AMST87 was held in Opatija, Croatia in October 1987. The Second International Conference on Advanced Manufacturing Systems and Technology AMSV90 was held in Trento, Italy in June 1990. The Third, Fourth, Fifth and Sixth Conferences on Advanced Manufacturing Systems and Technology were all held in Udine, Italy as follows: AMST93 in April 1993, AMST96 in September 1996, AMST99 in June 1999.
