Competitor or Partner for Traditional Banks?* Alice Hofmann, 2021-06-29 Bachelor Thesis from the year 2018 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade 1.0 University of Applied Sciences Essen language English abstract This paper will analyse if traditional banks deal with the continuous digitization and new technology based competitors especially FinTechs as a threat or rather as a chance for their own business model Is it more likely that banks and FinTechs will link up as partners to benefit from mutual competitive advantages or will it degenerate into a battle for power and market share Furthermore why is it that small start ups can present such a threat to established banks that have been operating for years Innovative start ups revolutionized several business sectors There was Napster for the music industry Uber for the taxi industry and there are FinTechs for the financial sector FinTech is an abbreviation for Financial Technology The designation itself already gives an idea of what their business idea looks like Intelligent technologies and the continuously expanding digitization across all business sectors expands the customers needs and demands towards banks They want to take care of banking business as easily and convenient as they order goods via Amazon ask Google for the way or stream music and movies online via Spotify or Netflix FinTech has recognized that change in customer behaviour and started to build their business models based on these findings Those new innovative market entrants are present in every part of the value chain of a traditional bank offering alternative financial products and services on a purely online basis Traditional banks are therefore facing significant challenges and risks that are endangering their competitiveness *The*

and what it means to a company's bottom line. You'll discover practical financial tools for assessing the value of higher dividend payouts and determining the value of a dividend growth trajectory. Even if your direct stock market experience has been disappointing or your mutual funds have performed poorly in recent years, refocusing your efforts on dividend strategies can provide just the vision you need to achieve long-term success with your investments. This is what business is all about. This is how investors and companies can share profits, build trust, and create opportunities for the future. This is The Dividend Imperative. You've seen the markets swing from bubble to scandal and back again. You've watched the divide between Wall Street and Main Street grow larger each year. You've wished there was a strategic approach to investing that strengthened portfolios, benefited companies, and bolstered the economy as well. The answer, according to business investor Daniel Peris, is simple: You need to focus on dividends. Investors need to demand bigger dividends, and U.S. corporations need to pay out more of their profits as dividends. This is THE DIVIDEND IMPERATIVE, a powerful new call to action for investors and corporate leaders by the acclaimed author of The Strategic Dividend Investor. Peris's ideas about aligning interests through higher dividend payments may be counter to current Wall Street wisdom, but savvy investors should trust Peris to guide them toward a strategy that focuses on generating strong long-term returns. JOHN EADE, President, Argus Research. Peris makes a compelling case that investors and companies need to focus more on dividends, which have accounted for the lion's share of stock market returns. JOHN HEINZL, Toronto's The Globe and Mail. If you're a shareholder and not a near-term shareseller, you deserve a better deal. Most companies can afford to pay higher dividends. Here's why they should. Investors who like cash should cheer for Peris. JEFFREY KOSNETT, editor of Kiplinger's Investing for Income. The book is a rallying cry for long-term investors to regain their rightful position using a simple but very powerful tool that they have at their disposal: demand for increased dividends. WILLIAM LYONS, CFO, CONSOL Energy. **ACM Conference on Computer and Communications Security**, 2006. **Business 2.0**, 2000-11.
