A Practical Guide to Paying off Your Mortgage Early Lien Luu, Sukanlaya Sawang, 2024-10-22 Owning a property is a dream for many people and borrowing from banks is often essential to achieve this. However, having a mortgage can cause real anxiety because of the latent fear of losing our home if we cannot keep up with mortgage payments. Traditionally, homeowners repay their debt over 25 years, but high house prices have made it necessary to increase the term up to 40 years to make monthly payments affordable. Spreading the debt over a longer period of time not only means that borrowers have to pay more interest but they are also exposed to other risks such as potential interest rate rises and changes in personal circumstances affecting their mortgage eligibility. These can lead to financial worries, financial stress, and reduced well-being. There are few practical guides available to show borrowers how to manage their mortgage debt more effectively and how to repay their mortgage quickly so that they are debt-free. This book seeks to empower consumers young and old by providing a roadmap to help borrowers achieve financial security through planning for the future, insuring their income, and setting up an emergency fund. It also outlines simple strategies for an early repayment of debt, including paying off the capital, making extra payments, and monitoring their mortgage debt. In doing so, it aims to help readers improve their general well-being, enhance their financial security, reduce their financial worries, and eliminate their mortgage insomnia.

Graphic Design as Communication Malcolm Barnard, 2013-07-04 What is the point of graphic design? Is it advertising or is it art? What purpose does it serve in our society and culture? Malcolm Barnard explores how meaning and identity are at the core of every graphic design project and argues that the role and function of graphic design is and always has been communication. Drawing on a range of theoretical approaches, including those of Derrida, Saussure, Foucault, and Barthes, and taking examples from advertising, magazines, illustration, website design, comics, greetings cards, and packaging, *Graphic Design as Communication* looks at how graphic design contributes to the formation of social and cultural identities. Malcolm Barnard discusses the ways in which racial, ethnic groups, age groups, and gender groups are represented in graphic design, as well as how images and texts communicate with different cultural groups. He also explores

how graphic design relates to both European and American modernism and its relevance to postmodernism and globalisation in the twenty first century and asks why when graphic design is such an integral part of our society and culture it is not acknowledged and understood in the same way that art is
