Wintrobe's Clinical Hematology Daniel A. Arber, Bertil Glader, Alan F. List, Robert T. Means, Frixos Paraskevas, George M. Rodgers, 2013-08-29 With the 13th edition Wintrobe's Clinical Hematology once again bridges the gap between the clinical practice of hematology and the basic foundations of science. Broken down into eight parts this book provides readers with a comprehensive overview of Laboratory Hematology, The Normal Hematologic System, Transfusion Medicine, Disorders of Red Cells, Hemostasis and Coagulation, Benign Disorders of Leukocytes, The Spleen and/or Immunoglobulins, Hematologic Malignancies, and Transplantation. Within these sections there is a heavy focus on the morphological exam of the peripheral blood smear, bone marrow, lymph nodes and other tissues. With the knowledge about gene therapy and immunotherapy expanding, new up to date information about the process and application of these therapies is included. Likewise the editors have completely revised material on stem cell transplantation in regards to both malignant and benign disorders, graft versus host disease and the importance of long term follow up of transplantation survivors.

Sunset, 1917 **Indian Antiquary**, 1900 At a time when each Society had its own medium of propagation of its researches in the form of Transactions, Proceedings, Journals etc a need was strongly felt for bringing out a journal devoted exclusively to the study and advancement of Indian culture in all its aspects. This encouraged Jas Burgess to launch the Indian antiquary in 1872. The scope was in his own words as wide as possible incorporating manners and customs, arts, mythology, feasts, festivals and rites, antiquities and the history of India. Another laudable aim was to present the readers abstracts of the most recent researches of scholars in India and the West. Indian antiquary also dealt with local legends, folklore, proverbs etc. In short Indian antiquary was entirely devoted to the study of MAN the Indian in all spheres.
