Poortinga, Janak Pandey, 1997 Part of a set containing the contributions of authors from a variety of nations cultures traditions and perspectives this volume offers an up to date assessment of theoretical developments and methodological issues in the rapidly evolving area of cross cultural psychology Islam & Psychology: Principles and Practices Mohd Nasir Masroom, 2024-06-01 Islam Psychology Principles and Practices by Mohd Nasir Masroom is an insightful and comprehensive exploration of the integration of Islamic teachings with contemporary psychological principles Drawing on the author's extensive experience as a senior lecturer in Islamic Psychology and Counseling this book delves into the rich and nuanced intersection of faith spirituality and mental health The book is divided into 20 engaging chapters each offering a deep dive into critical aspects of Islamic psychology It begins by exploring the foundational interface between psychology and religion emphasizing the often overlooked dimension of spirituality Early chapters introduce key Islamic concepts such as al Ruh the spirit al Qalb the heart al Nafs the self and al Aqal the intellect providing readers with a thorough understanding of the Islamic view of human nature Fitrah and personality As the book progresses it offers a detailed examination of the development of embryonic stages the significant contributions of five eminent scholars of Islamic psychology and the profound implications of the pillars of faith iman and Islam on individual well being The discussion extends to the spiritual science of Tasawwuf exploring spiritual heart diseases and the illnesses of the soul and providing insights into their spiritual cures The book also addresses practical applications of Islamic psychology in therapeutic settings with dedicated chapters on Islamic counseling psychotherapy and mental health These sections highlight how Islamic teachings can be effectively utilized in counseling and therapy considering the cultural and religious contexts of the patients A unique exploration of the connection between Jinn Ruqyah spiritual healing and mental health further enriches this discussion In the final chapters the book turns its focus to the emotional aspects of the human experience It examines emotions such as patience gratitude acceptance trust in Allah bravery fear happiness sadness love and hate all through the lens of Islamic teachings These discussions offer a holistic view of how emotions are understood managed and nurtured in Islam Islam Psychology Principles and Practices is a valuable resource for students scholars and professionals in the fields of psychology and Islamic studies as well as for anyone interested in the ways in which faith and spirituality influence mental health and well being By bridging classical Islamic knowledge with modern psychological practices this book offers a unique perspective that not only enhances our understanding of psychology but also enriches our approach to mental health in a way that is deeply rooted in faith and spirituality To students please do not hesitate to email the author mnsr1976@gmail.com to redeem a promotion code **American Journal of Islam and Society (AJIS) - Volume 39 Issues 1-2** Ali Altaf Mian, Emily Goshey, Aasim Padela, Thahir Jamal Kiliyamannil, Suheil Laher, Ismail Hashim Abubakar, Martin Jiajun He, Ali

Cebeci, Max Dugan, Abdallah Rothman, Alisha Ahmed, Rania Awaad, 2022-08-01 The four articles two review essays various book reviews and obituary contained in this issue all revolve around contestations of Islamic authority Notably two of these articles are drawn from the AJIS symposium on Maq id whose first set of essays were featured in the previous issue 38 3 4 dedicated to the topic In the first article Agents of Grace Ali Altaf Mian develops a sophisticated and nuanced reading of intentionality in the work of the moral theologian al Ghazali Mian reads the latter s work to disclose ethical action as a site of contingency and ambivalence indeed of the subject s non sovereignty He contributes this theorization of intentionality as a constructive critique of accounts of ethical agency in the anthropology of Islam In the second article No Scholars in the West Emily Goshey carefully unpacks the ostensible paradox by which Western Salafis who studied in the Muslim world are not seen as scholars by the very communities they lead What then comprises religious authority and scholarship within these models of knowledge transmission Goshey tracks the dynamics of scholarship and community leadership based on fieldwork with African American Salafi affiliate communities in Philadelphia In the third article Maq idi Models for an Islamic Medical Ethics Aasim Padela presents a typology of maq id based approaches to medical ethics Whether requiring a field based redefinition a conceptual extension or a text based postulation of the classical maq id theory however Padela shows that these frameworks remain woefully underdeveloped to offer appropriate and sufficient guidance for pressing bedside cases In the fourth article Developing an Ethic of Justice Thahir Jamal Kiliyannil offers a creative rereading of new Muslim movements in South India Rather than relying on old typologies about political Islam or secularized activists he considers the Solidarity Youth Movement to articulate an Islamic ethic of justice inspired by Abul A la Maududi This case study shows not only how the maq id framework may inform discourses well beyond the domains of legal practice but also how this specific articulation of political justice is based in the praxis of the Indian Muslim minority These four articles and the remaining elements of the issue foreground contemporary contestations of Islamic authority Read together they also offer a set of terms for thinking productively about its contours limits affordances and possibilities

Psychology Malik Badri, Humanology, 2018-03-15 The indiscriminate exportation of Western psychology to Muslim and third world countries can pose serious cultural and ideological dilemmas When the exported commodity from North to South is physical in nature the harm done can easily be identified for example the quick detection of the life threatening birth defects caused by the drug thalidomide when taken during pregnancy or the flaws in the breaking system of a Japanese car However when the exported product is ideas and beliefs and ways of life the indirect and sneaky damage is often much more malevolent and long lasting because it attacks the worldview of the recipients and it shakes their cherished beliefs Because of its technological supremacy Islamic and developing countries got used to wholeheartedly accepting any information coming from the West if it is under the tag of science By presenting itself under this prestigious mantra of science students in Muslim countries swallow the kernel of psychology with its nutshell the baby with its filthy water The danger of this approach

is greatly augmented by the shortcomings of our educational systems that discourages critical thinking and encourages the submissive acceptance of the words of the teacher and that of printed material **Islamic Psychology** G. Rothman,2021-07-29 At a time when there is increasing need to offer psychotherapeutic approaches that accommodate clients religious and spiritual beliefs and acknowledge the potential for healing and growth offered by religious frameworks this book explores psychology from an Islamic paradigm and demonstrates how Islamic understandings of human nature the self and the soul can inform an Islamic psychotherapy Drawing on a qualitative grounded theory analysis of interviews with Islamic scholars and clinicians this unique volume distils complex religious concepts to reconcile Islamic theology with contemporary notions of psychology Chapters offer nuanced explanations of relevant Islamic tradition and theological sources consider how this relates to Western notions of psychotherapy and common misconceptions and draw uniquely on first hand data to develop a new theory of Islamic psychology This in turn informs an innovative and empirically driven model of practice that translates Islamic understandings of human psychology into a clinical framework for Islamic psychotherapy An outstanding scholarly contribution to the modern and emerging discipline of Islamic psychology this book makes a pioneering contribution to the integration of the Islamic sciences and clinical mental health practice It will be a key resource for scholars researchers and practicing clinicians with an interest in Islamic psychology and Muslim mental health as well as religion spirituality and psychology more broadly **Great Muslim Leaders** Melanie C. Brooks,Miriam D.

Ezzani,2023-03-10 Great Muslim Leaders highlights diverse Muslim leaders offering Islamic informed alternatives to Eurocentric views on education and leadership Each chapter includes a leader s biography context key lessons and recommendations for educators The book emphasizes the global impact of Islamic intellectual history and spirituality
