The Dwarf Modern Korean Fiction:

The Dwarf Cho Se-hui, 2006-08-31 The dark side of South Korea's economic miracle emerges in *The Dwarf* Cho Se-hui's enormously popular and critically acclaimed work. First published in 1978, it speaks to the painful social costs of reckless industrialization even as it tellingly portrays the spiritual malaise of the newly rich and powerful and a working class subject to forces beyond its control. Cho's lean, clipped, deceptively simple style, the rapidly shifting points of view, terse dialogue and subtle irony evoke the particularities of life in 1970s South Korea in the presence of global economic forces. The desperate realities of life for the dwarf, the proverbial little guy upon whose back Korea's economic transformation largely took place, are emotively rendered in twelve linked stories examining the lives of a laboring family, a family of the newly emerging middle class, and that of a wealthy industrialist. The stories have overlapping characters and situations: the murder of a swindler, a family's eviction from a squatter settlement, the assassination of an important executive, the dwarf's fantasy of a planet where life is easier, his later suicide, and the subsequent fate of his dispersed friends and family members. **The**

Writers of the Winter Republic Youngju Ryu, 2015-11-30 In 1975 a young high school teacher took the stage at a prayer meeting in a southwestern Korean city to recite a poem called *The Winter Republic*. The poem became an anthem against the military dictatorship of Park Chung Hee and his successors; the poet, however, soon found himself in court and then in prison for saddling the authoritarian state with such a memorable moniker. This unique book weaves together literary works, biographical accounts, institutional histories, trial transcripts, and personal interviews to tell the powerful story of how literature became a fierce battleground against authoritarian rule during one of the darkest periods in South Korea's history. Park Chung Hee's military dictatorship was a time of unparalleled political oppression. It was also a time of rapid and unprecedented economic development. Against this backdrop, Youngju Ryu charts the growing activism of Korean writers who interpreted literature's traditional autonomy as a clarion call to action, an imperative to intervene politically in the name of art. Each of the book's four chapters is devoted to a single writer and organized around a trope central to his work: Kim Chi-ha's bandits satirizing Park's dictatorship; Yi Mun-gu's neighbor evoking old nostalgia and new anxieties; Cho Se-hui's dwarf representing the plight of the urban poor; and Hwang Sok-yong's

labor fiction the supposed herald of the proletarian revolution Ending nearly two decades of an implicit ban on socially engaged writing literature of the period became politicized not merely in content and form but also as an institution Writers of the Winter Republic emerged as the conscience of their troubled yet formative times A question of politics lies at the heart of this book which seeks to understand how and why a time of political oppression and censorship simultaneously expanded the practice and everyday relevance of literature By animating the lives and works of the men who shaped this period the book offers readers an illuminating literary cultural and political history of the era

Against the Chains of Utility Serk-Bae Suh, 2025-08-31 The 1970s and 1980s were pivotal decades in South Korea marked by rapid industrialization and urbanization The language

of sacrifice was constantly employed by the developmental state to justify its exploitation of workers and violation of countless civil rights as necessary for the nation's economic growth and security. As a counter to this prevailing rhetoric, a rich variety of literary texts emerged to capture moments of anti-utilitarian sacrifice including Kim Hyŏn's critical essays, Pak Sangnyung's monumental novel *A Study of Death* (1975) and Ko Chŏnghui's poems about the Passion of Jesus. *Against the Chains of Utility* examines the anti-utilitarian visions outlined in these and other works which range from the idea of sacrifice as an escape from instrumental rationality to the view of literature as a deviation from the mundane world. In doing so, it tasks us with rethinking literature's relationship to society during formative years in South Korean history. In *Against the Chains of Utility*, Serk Bae Suh challenges the notion of utilitarian sacrifice which continues to pervade every aspect of Korean society. He argues that any act of sacrifice for a higher cause is inherently utilitarian regardless of whether its motives are morally sound or questionable. Such sacrifices establish a circuit of exchange where sacrifice is valued solely based on its ability to achieve an end. To counter this instrumentalization, anti-utilitarian sacrifice must exist as a means without an end. Suh posits that literature's relevance to society lies in this seemingly nihilistic sacrifice, viewing literature not as a proxy for politics but as the art of imagination in language. *Translation Review*, 2008 **Korean Literature Today**, 1998 *Modern Korean Short Stories*, 1981 **Cultural Sociology of the Middle East, Asia, and Africa** Andrea L. Stanton, 2012. In our age of globalization and multiculturalism, it has never been more important to understand and appreciate all cultures across the world. The four volumes take a step forward in this endeavour by presenting concise information on those regions least well known to students across Europe: the Middle East, Asia, and Africa. The volumes convey what daily life is like for people in these selected regions. Entries will aid readers in understanding the importance of cultural sociology to appreciate the effects of cultural forces around the world and to learn the history of countries and cultures within these important regions. Key Features: Topics are explored within historical context in three broad historical periods: prehistory to 1250, 1250 to 1920, and 1920 to the present. One volume each is devoted to the regions of the Middle East and Africa, and then one volume to East and Southeast Asia, and a final volume to West Central and South Asia. The volumes include extensive use of photographs and maps to explain cultural and geographic content. Each volume has its own volume editor with expertise in that particular region. Key Themes: Arts, Culture, and Science; People, Society, and Dynasties; Religion and Law; Family and Daily Life; Conflicts and Wars; Politics and Government; Health and Education; Economy, Trade, and Industry; National Geography and History.
