Scarabaeoidea including evolutionary relationships character trait evolution species concepts descriptions of new taxa keys for identification nomenclature historical biogeography methods and basic life history information These papers are a valuable contribution to our knowledge of scarabaeoids and they will provide a foundation for future research The Invertebrate World of Australia's Subtropical Rainforests Geoff Williams,2020-09-01 The Invertebrate World of Australia's Subtropical Rainforests is a comprehensive review of Australia's Gondwanan rainforest invertebrate fauna covering its taxonomy distribution biogeography fossil history plant community and insect plant relationships This is the first work to document the invertebrate diversity of this biologically important region as well as explain the uniqueness and importance of the organisms This book examines invertebrates within the context of the plant world that they are dependent on and offers an understanding of Australia's outstanding but still largely unknown subtropical rainforests All major and many minor invertebrate taxa are described and the book includes a section of colour photos of distinctive species There is also a strong emphasis on plant and habitat associations and fragmentation impacts as well as a focus on the regionally inclusive Gondwana Rainforests Central Eastern Rainforest Reserves of Australia World Heritage Area The Invertebrate World of Australia's Subtropical Rainforests will be of value to professional biologists and ecologists as well as amateur entomologists and naturalists in Australia and abroad The Coleopterists' Bulletin ,2008 **Zoological Catalogue of Australia** ,1983 The published works are derived from the Zoological catalogue of Australia database Taxa in the Australian fauna are divided among volumes to form sets of about 1800 2000 species available names such that each volume comprises the whole or part of one or more major groups **Handbuch der Zoologie** , **Proceedings of the 10th International Symposium on Insect-Plant Relationships** Stephen J.
