Clickology Graham Jones, 2013-12-09 You're only a click away from online success. The world of shopping is at a crossroads. While online sales are growing at runaway speed, many businesses are finding themselves left behind, discovering that what has worked so long in offline does not work online and what works online does not necessarily translate offline. It simply doesn't click. Packed with tips, guidance, and real-world case studies from online niche stores Bellabox and Facetache to the universal appeal of Groupon and from offline discount stores Dollar Tree and Poundland to the luxury Selfridges, in this informative book internet psychologist Graham Jones reveals why most online shopping carts are abandoned before a purchase is ever made and how to stop this happening in your store. Why having a centrally positioned search box aids navigation and increases sales. Why offering free shipping online pays off. Why it makes sense to be sociable. He also reveals the why of consumer behaviour online, how it differs from offline behavior and how you can use this understanding to create a store that connects with and engages your customers on both a practical and a psychological level, a store that demonstrates true clickology. Using an accessible five-step CLICK system for turning clicks into dollars, the book shows how to learn from the experience of both on

and offline and apply lessons to both Whether you re running a small business website or that of a big corporation whether you re operating purely online or offline too Click ology shows you how to thrive A Breast Cancer Guide For Spouses, Partners, Friends, and Family Stephen Haynes, Luanna Meyer, Ian Evans, 2021-12-28 This practical science based book focuses on helping partners family and friends understand breast cancer It guides them in how to provide the best emotional and practical support when helping someone with breast cancer to cope recover and thrive while maintaining their own physical and psychological health The authors translate psychological evidence into concrete practical advice for caregivers validated through their first hand experience It also suggests ways to help someone with breast cancer make the best decisions in consultation with oncology professionals The authors draw on well established psychological principles relevant to social attitudes how decisions are made good communication skills empathy and how to better understand the ideas and worries experienced by women who have or may have breast cancer and those close to them Each chapter includes How you can Help sections that give specific and concrete suggestions as well as a chapter summary of the main points along with recommendations and additional resources It is essential reading for all those who want to help and support a loved one with breast cancer It is also useful for training healthcare professionals in how to support partners Time ,2010 *Popular Aviation* ,2004 Strategic Management Jeffrey H.
