Gender and Women's Leadership Karen O'Connor, 2010-08-18 This work within The SAGE Reference Series on Leadership provides undergraduate students with an authoritative reference resource on leadership issues specific to women and gender. Although covering historical and contemporary barriers to women's leadership and issues of gender bias and discrimination, this two-volume set focuses as well on positive aspects and opportunities for leadership in various domains and is centered on the 101 most important topics, issues, questions, and debates specific to women and gender. Entries provide students with more detailed information and depth of discussion than typically found in an encyclopedia entry but lack the jargon, detail, and density of a journal article. Key Features: Includes contributions from a variety of renowned experts; Focuses on women and public leadership in the American context, women's global leadership, women as leaders in the business sector, the nonprofit and social service sector, religion, academia, public policy, advocacy, the media, sports, and the arts; Addresses both the history of leadership within the realm of women and gender with examples from the lives of pivotal figures and the institutional settings and processes that lead to both opportunities and constraints unique to that realm; Offers an approachable, clear writing style directed at student researchers; Features more depth than encyclopedia entries, with most chapters ranging between 6,000 and 8,000 words while avoiding the jargon and density often found in journal articles or research handbooks; Provides a list of further readings and references after each entry as well as a detailed index and an online version of the work to maximize accessibility for today's student audience. It provides a comprehensive overview of theoretical and empirical approaches to the economics and management of regenerative production, evaluating sustainability in relation to global production and innovation networks. Renowned authors address pressing challenges such as climate change, deforestation, desertification, technological advancements, and rising social inequality, as well as the ongoing exploitation of labor in the Global South. **Extraordinary Performance from Ordinary People** Keith Ward, Cliff Bowman, Andrew Kakabadse, 2007-02-07 Extraordinary performance from ordinary people is a must-read for the high-performing manager with the ambition to reach corporate leadership status. The book focuses on both the key value-adding activities and disciplines for driving through change and the styles of corporate leaders that attract success. Extraordinary performance from ordinary people highlights how the leaders of the company as a corporate team can adopt and adapt the four value-creating styles.
