College Rankings Top Setup:

Global University Rankings and the Mediatization of Higher Education Michelle Stack,2016-04-12 Higher Education Institutions simultaneously critique and participate in national and international rankings of universities. However this creates a difficult situation since if universities do participate in rankings they acquiesce to a system based in media logics that has little to do with academic norms of research. If they do not participate in the rankings they risk losing public funding students and donors in an increasingly competitive and globalized environment. This book delves into the influence of journalists business tycoons and multinational corporations in defining what world class is and how it will be measured. Rankings provide us with a rich study for understanding how universities define deploy and manage their assets and liabilities in a mediatized globalized economy

World University Rankings and the Future of Higher Education Downing, Kevin,Ganotice, Jr., Fraide A.,2016-10-06 Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today. To attain their goals universities must adopt new strategies to achieve academic excellence. World University Rankings and the Future of Higher Education is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions providing a thorough overview of the impacts of these rankings on educational quality. Exploring the benefits and challenges of this system in a global context this book is ideally designed for academicians researchers students administrators and policy makers interested in the effects of university rankings in the education sector and beyond

Asian Scientists on the Move Anju Mary Paul,2021-12-09 The growing scientific research output from Asia has been making headlines since the start of the twenty first century. But behind this science story there is a migration story. The elite scientists who are pursuing cutting edge research in Asia are rarely homegrown talent but were typically born in Asia trained in the West and then returned to work in Asia. Asian Scientists on the Move explores why more and more Asian scientists are choosing to return to Asia and what happens after their return when these scientists set up labs in Asia and start training the next generation of Asian scientists. Drawing on evocative firsthand accounts from 119 Western trained Asian scientists about their migration decisions and experiences and in depth analysis of the scientific field in four country case studies China India Singapore and Taiwan the book reveals the growing complexity of the Asian scientist migration system
