**Social Reading Cultures on BookTube, Bookstagram, and BookTok** Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube Bookstagram and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. **Handbook of Research on Current Trends in Asian Economics, Business, and Administration** Akkaya, Bülent, Jermitsiparsert, Kittisak, Gunsel, Ayse, 2021-10-08 Social sciences have always been an important tool that enables human beings to examine and understand society. Through social sciences researchers gain understandings of social phenomena and changes by providing commentaries producing explanations and attempting to synthesize a diversity of information sets to formulate theories. Since the concept of change has been the hallmark of the new millennium researchers have witnessed a transformation in every aspect of the modern world at an ever increasing speed particularly in the social facet of human life. Ways of thinking that had previously been upheld and taught may therefore no longer be appropriate or effective as tools to understand contemporary phenomena and changes. The Handbook of Research on Current Trends in Asian Economics Business and Administration is a critical reference source that examines different aspects of social sciences management, sociology and education to better understand today's society and social life in the Asian context. The book identifies trends, impacts and implications of disruptive technologies for business and socio-economic development as well as strategic advantage on different levels of business and administration. Covering topics that include e-commerce, green management, information technology, economic growth and distance learning, this book is essential for economists, academicians, government officials, policymakers, social scientists, managers, leaders, behavioral scientists, academicians, researchers and students.

Economic and political uncertainty, sustainability, developments and competitors with new business models are just some issues that stretch companies' resilience and adaptability. Strategy in Turbulent Times presents a way of analyzing and fighting turbulent environments. Using four animal metaphors (the Camel, Salmon, Chameleon and Octopus) it shows you how to develop new strategies and how to implement them. It is up to you to discover which animal

represents the appropriate turbulence strategy for your organization. *Strategy in Turbulent Times* is a wonderful and practical book full of inspiring examples that examines how organizations can respond to turbulence. This excellent book is full of fresh ideas and practical advice. It deserves to be widely read and be on the shelf of every senior executive crafting their organization's strategy. Costas Markides, Professor of Strategy and Entrepreneurship Holder of the Robert Bauman Chair in Strategic Leadership London Business School. *Strategy in Turbulent Times* provides a state of the art playbook for the tactics you can use to make sense of and respond to the forces of disruption in your industry. Julian Birkinshaw, Vice Dean Professor of Strategy London Business School. Kurt Verweire successfully explains how to understand and tackle a turbulent environment in this highly relevant book. Marion Debruyne, Dean Vlerick Business School. Kurt Verweire offers us practical insights. This is useful material for any manager seeking opportunities in what I like to call 'The Never Normal'. Peter Hinssen, Author, Keynote speaker and Serial Entrepreneur. Strategy and turbulence two words that capture the essence of many companies' current transformation efforts. Much akin to a cyclist navigating a mountainous terrain, success lies in balancing the focus on the summit while acknowledging the significance of each pedal's stroke. Profits aren't assured yet a steadfast strategy and unwavering execution significantly tip the scales toward success. Erik Luts, Chief Innovation Officer KBC Group.
