

Awe and Wonder
Paper Towel Colour Mixing

What you need:

- water
- food coloring
- paper towels
- bottle

What to do:

1. Put red food coloring into one paper towel and blue food coloring into another paper towel next to that paper.

2. Pour 1-2 cups of water into each paper towel.

3. Watch the liquid move up the paper towel.

4. Watch what happens to the colors.

5. What has gone on? (What happens to the colors?)

6. Why does water move up when the paper towel is wet?

The science:

Water moves in the paper towel because it wants to follow a pattern of water. The water travels with the water moving the liquid through your paper towel. It will go up the fibres and when they are given together, red and blue will spread to make other colors like a green, yellow or blue color.
