

# The Spirit of the Counter- Reformation

H. OUTRAM EVENNETT

EDITED WITH A POSTSCRIPT BY  
JOHN BOSSY

CAMBRIDGE UNIVERSITY PRESS

# The Spirit Of The Counter Reformation

**H. Outram Evennett**

## **The Spirit Of The Counter Reformation:**

*The Spirit of the Counter-Reformation* H. Outram Evennett, 1991-02 Outram Evennett was a university lecturer in history at Cambridge and a Fellow of Trinity College This book based on his Birkbeck Lectures of 1951 represents some twenty years work on the sources of the Counter Reformation Evennett did not live to complete his task but he has provided a remarkable synthesis of the vast European literature on this subject His method was to isolate the special and positive characteristics of the Counter Reformation and to account for them in relation to the environment in which they developed This approach is highly original it sees in the spirit of the Counter Reformation an attempt not to check but to extend and come to terms with the more individualistic and modern environment in which the Catholic Church found itself The Jesuits are treated as agents of this change Dr John Bossy has edited these lectures for publication and added a Postscript analysing some of the problems raised in the years since the lectures were delivered Professor David Knowles pays tribute to Evennett's memory in a Foreword

*The Spirit of the Counter-Reformation* Henry Outram Evennett, 1986      *The Spirit of the Counter-Reformation* Henry Outram Evennett, 1968      **The Spirit of the Counter-reformation** Henry Outram Evennett, 1968      *The Spirit of the Counter-Reformation* Henry Outram Evennett, 1968      *The Spirit of the Counter-Reformation. The Birckbeck Lectures in Ecclesiastical History Given in the University of Cambridge in May 1951 ... Edited, with a Postscript, by John Bossy. [With a Portrait.].* Henry Outram Evennett, John BOSSY, 1968      **The Counter Reformation** Arthur Geoffrey Dickens, 1969

The reform of the Catholic Church in the sixteenth century was historically as important as the contemporary Protestant Reformation Though never committed solely to fighting Protestantism it inevitably also became a Counter Reformation since it soon faced the threat created by Luther and his successors The century between the career of Ignatius Loyola and that of Vincent de Paul became a classic age of Catholicism The lives of its saints popes and secular champions could hardly be made more fascinating by any novelist While paying due attention to the great characters the author also considers the broader political social and cultural features of the Counter Reformation A G Dickens is Emeritus Professor of History at the University of London

*Magistrates, Madonnas and Miracles* Trevor Johnson, 2016-12-05 In 1621 in one of the earliest campaigns of the Thirty Years War the South German principality of the Upper Palatinate was invaded and annexed by Maximilian of Bavaria director of the Catholic League In the subsequent years the eyes of Europe looked to the fate of this erstwhile hub of the Calvinist international as Maximilian steadily moved to convert its population to Catholicism This study is the first account in English to focus on this important instance of forced conversion and the first account in any language to place the political impact of the Thirty Years War into the broader context of the Upper Palatinate's religious culture examined over the longue dur e from the later sixteenth to the mid eighteenth centuries The book analyses the rich unpublished sources of church and state from Bavarian and Roman archives as well as printed texts in varied genres to reconstruct the region's sacred system and to gauge the effectiveness of the campaign of conversion This allows the study to

address questions of how the re catholicisation was achieved how a religious culture infused with the spirit of the Counter Reformation developed and how this change shaped the identity of its people More than this however the book also uses the Upper Palatinate case study to draw broader conclusions about the strengths and limitations of the Confessional model and suggests other ways of looking at religious change and identity formation in early modern Europe which embraces popular religious culture and voluntary religion as well coercion As such the book offers much not only to scholars of early modern Germany but to all with an interest in the formation adoption and imposition of religious identity during this period *The Catholic Reformation* Michael A. Mullett,2023-03-08 The Catholic Reformation 1999 provides a dynamic and original history of this crucial movement in early modern Europe Starting from the late middle ages it clearly traces the continuous transformation of Catholicism in its structure bodies and doctrine Charting the gain in momentum of Catholic renewal from the time of the Council of Trent it also considers the ambiguous effect of the Protestant Reformation in accelerating the renovation of the Catholic Church It explores how and why the Catholic Reformation occurred stressing that many moves towards restoration were underway well before the Protestant Reformation The huge impact the Catholic renewal had not only on the papacy Church leaders and religious ritual and practice but also on the lives of ordinary people their culture arts attitudes and relationships is shown in colourful detail **A Century of Theological and Religious Studies in Britain, 1902-2002** Ernest Nicholson,2003 The essays in this volume give an account of how the agenda for theology and religious studies was set and reset throughout the twentieth century by rapid and at times cataclysmic changes wars followed by social and academic upheavals in the 1960s by new movements of thought by a bounty of archaeological discoveries and by unprecedented archival research Further new trends of study and fresh approaches existentialist Marxian postmodern have in more recent years generated new quests and horizons for reflection and research Theological enquiry in Great Britain was transformed in the late nineteenth century through the gradual acceptance of the methods and results of historical criticism New agendas emerged in the various sub disciplines of theology and religious studies Some of the issues raised by biblical criticism for example Christology and the quest of the historical Jesus were to remain topics of controversy throughout the twentieth century In other important and far reaching ways however the agendas that seemed clear in the early part of the century were abandoned or transformed and replaced not only as a result of new discoveries and movements of thought but also by the unfolding events of a century that brought the appalling carnage and horror of two world wars Their aftermath brought a shattering of inherited world views including religious world views and disillusion with the optimistic trust in inevitable progress that had seemed assured in many quarters and found expression in widely influential liberal theological thought of the time The centenary of the British Academy in 2002 has provided a most welcome opportunity for reconsidering the contribution of British scholarship to theological and religious studies in the last hundred years The Age of Reform, 1250-1550 Steven Ozment,2020-08-25 Celebrating the fortieth anniversary of this seminal book this new

edition includes an illuminating foreword by Carlos Eire and Ronald K Rittges The seeds of the swift and sweeping religious movement that reshaped European thought in the 1500s were sown in the late Middle Ages In this book Steven Ozment traces the growth and dissemination of dissenting intellectual trends through three centuries to their explosive burgeoning in the Reformations both Protestant and Catholic of the sixteenth century He elucidates with great clarity the complex philosophical and theological issues that inspired antagonistic schools traditions and movements from Aquinas to Calvin This masterly synthesis of the intellectual and religious history of the period illuminates the impact of late medieval ideas on early modern society With a new foreword by Carlos Eire and Ronald K Rittgers this modern classic is ripe for rediscovery by a new generation of students and scholars *Europe and England in the Sixteenth Century* T.A. Morris,2002-09-11 This innovative textbook uniquely combines an integrated survey of European and English history in the sixteenth century The book is structured in three parts the Western european Environment The Rise of the Great Monarchies and the Crisis of the Great Monarchies It covers political social religious and economic history from the late Renaissance to Mary Stuart and Philip II It recognises the amount of common belief and interest between the British Isles and Western Europe in the century of the Reformation and Counter Reformation and indicates how events on one side of the Channel influenced those on the other side Key Features colourful and informative biographical sketches of major figures clearly structured genealogical charts chronologies and full glossaries surveys of changing historiographical debates including contemporary issues documentary exercises related to examination questions lavish illustrations including maps tables photographs and line drawings Drawing on many years of classroom experience Terry Morris presents in a highly readable and concise format the essential elements of narrative and debate while also indicating routes to follow for deeper and more advanced study The book will be essential reading for students of early modern history *The Spirit of the Counter-Reformation* H. Outram Evennett,1968 [The Ashgate Research Companion to the Counter-Reformation](#) Dr Alexandra Bamji,Dr Geert H Janssen,Dr Mary Laven,2013-04-28 The Ashgate Research Companion to the Counter Reformation presents a comprehensive examination of recent scholarship on early modern Catholicism in its many guises It examines how the Tridentine reforms inspired conflict and conversion and evaluates lives and identities spirituality culture and religious change This wide ranging and original research guide is a unique resource for scholars and students of European and transnational history [History of the Church: Reformation and Counter Reformation](#) Hubert Jedin,John Patrick Dolan,1980 **The Spirit and the Incarnation** William Lowe Walker,1907 **The Spirit of Russia** Tomáš Garrigue Masaryk,1919 **The Complete Works of Friedrich Nietzsche: Human, all-too-human, tr. by Helen Zimmern and Paul V.
