The Starship And The Canoe:

The Starship and the Canoe Kenneth Brower, 2020-02-18 The Starship and the Canoe is neither a wilderness survival manual nor a book of blueprints It is another of those rare books impossible to define the kind that seeks you in time And you will know it live it and consult it thereafter simply by name Chicago Sun Times Brower s superbly written book clutches at one s imagination Publishers Weekly In the tradition of Carl Sagan and John McPhee a bracing cerebral voyage past intergalactic hoopla and backwoods retreats Kirkus Reviews Originally published in 1978 The Starship and the Canoe is the remarkable story of a father and son Freeman Dyson is a world renowned astrophysicist who dreams of exploring the heavens and has designed a spaceship to take him there His son George a brilliant high school dropout lives in a treehouse and is designing a giant kayak to explore the icy coastal wilderness of the Pacific Northwest and Alaska Author Kenneth Brower describes with stunning impact their lives and their visions of the world It is a timeless tale framed by modern science adventure family and the natural world

The Starship and the Canoe Kenneth Brower, 1980 *Canoe Crossings* Sanford Osler, 2014-05-08 Often called one of the Seven Wonders of Canada the canoe has played a particularly important role in British Columbia This seemingly simple watercraft allowed coastal First Nations to hunt on the open ocean and early explorers to travel the province s many waterways Always at the crossroads of canoe culture BC today is home to innovative artists and designers who have rediscovered ancient canoe building techniques as well as community leaders who see the canoe s potential to bring people together in exciting inspiring ways The story of Canoe Crossings begins some fifteen thousand years ago when as compelling new evidence suggests the first humans to reach the Americas did so by canoe down the West Coast It continues through the centuries chronicling the evolution of the canoe and its impact on the various people who used it to explore hunt trade fight race create and even heal The book contains dozens of stories of colourful passionate people who have contributed to the province s canoe culture including a teenager who lived ninety feet up in a tree house while designing and building the world s longest kayak a group of high school students who practised on a tiny lake and went on to win several World Dragon Boat Championships and at risk Aboriginal youth who reconnected with their traditional culture through annual big canoe trips Canoe Crossings will appeal to anyone who has ever sought adventure found solace or seen beauty in a canoe or wondered about the origins of its design and use in British Columbia and beyond

The Circumference of Home Kurt Hoelting, 2010 This much is clear to me If I can t change my own life in response to the greatest challenge now facing our human family who can And if I won t make the effort to try why should anyone else So I ve decided to start at home and begin with myself The question is no longer whether I must respond The question is whether I can turn my response into an adventure After realizing the gaping hole between his convictions about climate change and his own carbon footprint Kurt Hoelting embarked on a yearlong experiment to rediscover the heart of his own home He traded his car and jet travel for a kayak a bicycle and his own two feet traveling a radius of 100 kilometers from his home in Puget

Sound This circumference of home proved more than enough Part quest and part guidebook for change Hoelting s journey is an inspiring reminder that what we need really is close at hand and that the possibility for adventure lies around every bend
