## **The Structure Of Resurrection Belief:**

The Structure of Resurrection Belief Peter Carnley, 1987 This book critically examines the attempts of the world's leading theologians over the past 100 years to deal conceptually with the resurrection of Christ Finding such attempts ultimately unsatisfactory Carnley articulates a logically coherent epistemology of faith in the resurrection that respects the authority of scriptural traditions as understood by contemporary New Testament scholars while preserving the transcendental dimensions of the resurrection as a divine mystery and the modern experience of the Easter Christ *The Structure of Resurrection Belief* Peter Carnley, 1987 This is a comprehensive and thought provoking critique of both theological and philosophical attempts over the last 200 years to understand the resurrection a central tenet of the Christian faith The author fastens upon vital matters of faith and experience

**The Reconstruction of Resurrection Belief** Peter Carnley, 2019-06-24 In the companion volume to this *The Resurrection in Retrospect* Peter Carnley focuses on the inadequacies for faith in Jesus Christ of an approach to his resurrection purely as an event of past historical time *The Reconstruction of Resurrection Belief* articulates an alternative understanding of resurrection faith as essentially a response of trust based upon a knowledge by acquaintance with the living presence of Christ today This book seeks to articulate an understanding of the nature of resurrection faith in the language of today with as much logical coherence as possible in the hope that it may have some traction in the increasingly secular world of contemporary scientific materialism It faces the key challenge of seeking to explain how the claim that the animating Spirit of the Christian community that Saint Paul spoke of as the Spirit of life in Christ Jesus Rom 8 2 may be justifiably identified in faith today as the living presence of Jesus of Nazareth

**Resurrection in Retrospect** Peter Carnley, 2019-05-06 In 2003 the British New Testament scholar N T Wright published *The Resurrection of the Son of God* arguing vigorously that the Resurrection of Christ should be handled purely as a historical event subjected to historical reason and critical historical research This book critically examines Wright's arguments Peter Carnley demonstrates the flaws in the view that the Resurrection should be understood essentially as Jesus' return from the dead to this world of space and time in a material and physical body Carnley argues that the Resurrection of Christ is a mystery of God which must necessarily be appropriated not by reason alone but by faith Evidence relating to a past occurrence can be known only retrospectively Yet Easter faith has to do with apprehending in the present a concretely experienced reality which Saint Paul called the Spirit of life in Christ Jesus Rom 8 2 An epistemology of the identification of the Spirit in faith as the living presence of Christ will be found in the companion volume to this book *The Reconstruction of Resurrection Belief* *Personalism and the Politics of Culture* P. Grant, 1996-10-02 This book deals with interrelationships between literature and religion to examine the idea of the person in relation to the politics of culture Throughout Patrick Grant maintains that ideology separates value from fact spirit from matter and this separation depersonalises In a series of chapters dealing with body city others freedom and transgression and through a selection of texts from the New Testament

to the Northern Irish poets he shows how literature spirituality and postmodern culture might jointly liberate persons in a society committed to democratic process and socialist values

**Dictionary of Ethics, Theology and Society** Paul A. B. Clarke, Andrew Linzey, 2013-11-05 This Dictionary provides a unique and groundbreaking survey of both the historical and contemporary interrelations between ethics theology and society In over 250 separately authored entries a selection of the world s leading scholars from many disciplines and many denominations present their own views on a wide range of topics Arranged alphabetically entries cover all aspects of philosophy theology ethics economics politics and government Each entry includes a concise definition of the term a description of the principal ideas behind it analysis of its history development and contemporary relevance a detailed bibliography giving the major sources in the field The entire field is prefaced by an editorial introduction outlining its scope and diversity Selected entries include Animal Rights Capital Punishment Communism Domestic Violence Ethics Evil Government Homophobia Humanism Liberation Theology Politics Pornography Racism Sexism Society Vivisection Women s Ordination

**Resurrection** Karl Olav Sandnes, Jan-Olav Henriksen, 2020-04-23 Christian faith depends upon the resurrection of Jesus but the claim about Jesus resurrection is nevertheless disputed This book written by a New Testament scholar and a systematic theologian in conjunction develops the conditions for the claim It carefully analyzes the relevant texts and their possible interpretations and engages with New Testament scholarship in order to show nuances and different trajectories in the material The picture emerging is that the New Testament authors themselves tried to come to terms with how to understand the claim that Jesus had been resurrected from the dead But the book does not stop there by also asking for the experiential content that gave rise to the belief in the resurrection Sandnes and Henriksen argue that there is no such thing as an experience of the resurrection reported in the New Testament only experiences of an empty tomb and appearance of Jesus interpreted as Jesus resurrected Hence resurrection emerges as an interpretative category for post Easter experiences and is only understandable in light of the full content of Jesus ministry and its context

**Faith and Evolution** Haight SJ, Roger, 2019-10-24

**Faith in God Through Jesus Christ** John Farrelly, 1997 In short readable essays this book looks at what ecumenical dialogue can teach us about the papacy teaching authority feminism dissent infallibility grace ordination the nature of unity and the future of the Church But mutual criticism also follows from an exchange of gifts and this book includes reflection on where reform of the Church is needed

**The Volitional Element in Knowledge and Belief** Delo Corydon Grover, 1911

**The Empty Tomb** Robert M. Price, 2009-09-25 Did Jesus rise from the dead Although 19th and early 20th century biblical scholarship dismissed the resurrection narratives as late legendary accounts Christian apologists in the late 20th century revived historical apologetics for the resurrection of Jesus with increasingly sophisticated arguments A few critics have directly addressed some of the new arguments but their response has been largely muted The Empty Tomb scrutinizes the claims of leading Christian apologists and critiques their view of the resurrection as the best historical explanation The contributors include New Testament

scholars philosophers historians and leading nontheists They focus on the key questions relevant to assessing the historicity of the resurrection What did the authors of the New Testament mean when they said Jesus rose from the dead What historical evidence is needed to establish the resurrection If there is a God why would He resurrect Jesus Was there an empty tomb What should we make of the appearance stories Apart from historical evidence is belief in the resurrection justified The Empty Tomb provides a sober objective response to arguments offered in defense of Christianity's central claim     **The Reconstruction of Belief: Belief in God.
