## **Whos Your Daddy Baby:**

*Who's Your Daddy?* Lauren Gallagher, 2017-03 Everyone's bringing baggage to this baby shower Carmen James is nowhere near finished picking up the pieces after her divorce and the last thing she needs is a positive pregnancy test. The fact that she doesn't know for sure who the father is doesn't help matters but on the bright side there's only two candidates Donovan her best friend or Isaac his longtime boyfriend Carmen's struggling with an impossible to please family in between getting back on her feet. Donovan has his hands full with a teenager plus a strained relationship with his own father whose approval Donovan desperately craves. Isaac's questioning his sexuality not to mention wondering if he can handle a newborn at forty. And to top it off they won't know who the father actually is until the baby's born which has both men questioning how the outcome will affect their longstanding relationship. Oh and there's that minor detail about the undeniable three way attraction that got them all into bed in the first place. Since they're all quite compatible in the bedroom and Carmen's already pregnant a casual sexual relationship seems like a good idea in the beginning. When emotions get involved though they could drive Carmen, Donovan, and Isaac apart when they need each other the most. Get ready for three people in one hell of a pickle anyone have any ice cream parents who suck at parenthood parents to be who think they'll suck at parenthood a relationship friendship sexual kind of thing that keeps getting more complicated and a Chuck Norris joke. This 99 000 word bisexual menage romance novel was previously published

[The Practice of Folklore](#) Simon J. Bronner, 2019-08-01 Winner of the 2020 Chicago Folklore Prize CHOICE Outstanding Academic Title for 2020 Despite predictions that commercial mass culture would displace customs of the past traditions firmly abound often characterized as folklore. In *The Practice of Folklore* Essays toward a Theory of Tradition author Simon J. Bronner works with theories of cultural practice to explain the social and psychological need for tradition in everyday life. Bronner proposes a distinctive praxic perspective that will answer the pressing philosophical as well as psychological question of why people enjoy repeating themselves. The significance of the keyword practice he asserts is the embodiment of a tension between repetition and variation in human behavior. Thinking with practice particularly in a digital world forces redefinitions of folklore and a reorientation toward interpreting everyday life. More than performance or enactment in social theory practice connects localized culture with the vernacular idea that this is the way we do things around here. Practice refers to the way those things are analyzed as part of rather than apart from theory thus inviting the study of studying The way we do things invokes the social basis of doing in practice as cultural and instrumental. Building on previous studies of tradition in relation to creativity Bronner presents an overview of practice theory and the ways it might be used in folklore and folklife studies. Demonstrating the application of this theory in folkloristic studies Bronner offers four provocative case studies of psychocultural meanings that arise from traditional frames of action and address issues of our times referring to the boogieman connecting wild child beliefs to school shootings deciphering the offensive chants of sports fans and explicating male bravado in bawdy singing. Turning his analysis to the

analysts of tradition Bronner uses practice theory to evaluate the agenda of folklorists in shaping perceptions of tradition centered folk societies such as the Amish He further unpacks the culturally based rationale of public folklore programming He interprets the evolving idea of folk museums in a digital world and assesses how the folklorists terms and actions affect how people think about tradition     *Who's Your Daddy?* Rachel Epstein,2009 This ground breaking collection of writing brings vital and refreshing insights into current discussions about queer parenting The essays blend narrative and academic voices from Canada the United States England and Australia The contributors are parents prospective parents writers academics lawyers activists health care professionals and most significantly queer spawn the children of LGBTQ parents The themes represented in these 40 essays include butches raising sons queer youth as parents trans experience in fertility clinics legal and historical reflections bisexuality and adoption race relations in the family heteronormativity in queer family kids books class issues within families dealing with infertility polyamory and parenting discussions with sperm donors single moms gay dads developments in reproductive technologies rural and urban experience and reflections on the meanings of biology and of queer parenting
