The Solo Librarian Lucy Roper, 2024-06-18 Becoming a solo librarian may be a daunting prospect. From collections to cataloguing, classifying to copyright, whether the individual is a solo librarian within a small team with limited help or working in a larger library or information hub, the range of tasks involved will remain the same. Whilst being a solo librarian does have its fair share of challenges, that can include juggling multiple tasks and time management, marketing and embracing the ever-changing technologies and upcoming social media channels, and effectively managing the feeling of being isolated, there are also many advantages. With the author having been through the education process and gained work experience, information professionals will have already picked up many transferrable skills and identified some key aspects when it comes to accessing, using and running a library. By being intellectually curious, embracing ever-changing technologies, enjoying learning and knowledge creation, and working alongside non-library colleagues, it is likely that information professionals are organised, can manage their time effectively, enjoy helping others by sharing and promoting library and information services, and will stay engaged as a team of one. As a solo librarian herself, and a book not being available on the topic she has decided to write one which covers the lessons learnt and templates created in order to assist others that find themselves in a similar role or a small team with limited help. This internationally applicable and practical handbook will follow a yearly planner and shows a timeline of key activities that happen throughout in this instance an academic year and include the following examples: Acquisitions, cataloguing, updating library guidance before academic year start, September Student and Staff Inductions, September, October, Quarterly Business Review to review updates and library usage, Oct-Dec Library cover over student/staff holiday period, Dec, Quarterly Business Review, Jan, Mar, Quality standard, re-accreditation, April, Research methods, study skills, webinars, April, Library cover over student holiday period, April, Quarterly Business Review, April, June, Copyright Audit, May, Copyright Academic Rollover, June, Quarterly Business Review, July, Sept, Yearly e-Library review, July, Financial Review, July, Student Survey Results, July, Library cover over student holiday period, August, September. Appendices will include a condensed version of Lucy the Librarian top tips for successful solo librarianship. Note: Chapter 4 of the publication will expand on key elements and provide contextual examples as well as providing templates and guidance notes that will be made available to download and used to aid those working in information/knowledge libraries and related disciplines, whether based within the UK or around the world. The idea behind this practical handbook therefore is to provide guidance and templates to cover: Understanding the roles and responsibilities of a solo librarian, Identifying library user needs, Benchmarking, Forming a clear structure for Physical and Online Libraries, Acquisitions and financial management, Classification and cataloguing, Archives and records management, Copyright incl. Referencing and Plagiarism, Intellectual Property and Licensing, Communications and promotion. Where to access further Information, Advice and Guidance and more.
