E-Commerce and Digital Business Models Dr. Ankul Pandey, Dr. Abhinav Kumar Tiwari, 2025-09-18 Dr. Ankul Pandey Assistant Professor Department of Commerce Government Shahid Kedarnath College Mauganj Madhya Pradesh India Dr. Abhinav Kumar Tiwari Assistant Professor Department of Commerce Government Shahid Kedarnath College Mauganj Madhya Pradesh India

**De Gruyter Handbook of Media Technology and Innovation** Richard A. Gershon, 2025-01-27 The De Gruyter Handbook of Media Technology and Innovation brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management information technology product design planning and digital lifestyle This handbook is about the power of good ideas It s about those business enterprises government planners educators and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in Keeping pace with fast paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues A major premise of this book is that given the complex and ever changing state of media technology we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business education and the general public Forecasting the future as any weatherperson or stock broker can tell you is a risky business But in this book we use the phrase the creative next step as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward

**Rules on Digital Trade in the Light of World Trade Organization Agreements** Asif Khan, 2023-12-14 Doctoral Thesis Dissertation from the year 2023 in the subject Business economics Trade and Distribution language English abstract This doctoral dissertation deals with rules on digital trade in the light of WTO agreements Digital trade has brought about profound changes in the international trade framework Traditional trade which primarily involved the exchange of physical goods has now expanded to encompass a wide range of digitally delivered services online transactions and data flows This transformation has been driven by advancements in technology and the increasing interconnectedness of the global economy The digital economy encompasses various digital technologies and platforms and has become a significant driver of economic growth and innovation It allows businesses to reach international markets more quickly and efficiently transcending geographical barriers The internet mobile devices cloud computing and artificial intelligence have facilitated this digital transformation These technologies enable seamless communication data storage and processing automation and personalised services revolutionising how businesses operate and engage in international trade Digital trade has created new opportunities for businesses of all sizes Small and medium sized enterprises have benefited from the ability to access global markets through digital platforms and e commerce These platforms provide a means for Small and medium sized enterprises to connect with potential customers worldwide establish their presence and

market their products and services without needing a physical presence in foreign markets. This has lowered entry barriers and empowered small and medium-sized enterprises to participate in global value chains, expanding their reach and contributing to economic growth. One of the notable developments in the digital trade era is the rise of platform-based businesses. These platforms, such as e-commerce marketplaces, ride-sharing services, and online payment systems, act as intermediaries connecting buyers and sellers across borders. They facilitate transactions, provide infrastructure and services, and enable businesses to expand their customer base globally. Platforms have become influential players in international trade, shaping market dynamics and redefining traditional trading systems.

**Now Media** Norman J. Medoff, Barbara K. Kaye, 2021-04-07. Now in its fourth edition, this book is one of the leading texts on the evolution of electronic mass communication in the last century, giving students a clear understanding of how the media of yesterday shaped the media world of today. *Now Media Fourth Edition* (formerly *Electronic Media Then Now Later*) provides a comprehensive view of the beginnings of electronic media in broadcasting and the subsequent advancements into now-digital media. Each chapter is organized chronologically, starting with the electronic media of the past, then moving to the media of today, and finally exploring the possibilities for the media of the future. Topics include the rise of social media, uses of personal communication devices, the film industry, and digital advertising, focusing along the way on innovations that laid the groundwork for now-television and radio and the Internet and social media. New to the fourth edition is a chapter on the amazing world of virtual reality technology, which has spawned a new way of communicating with the world and becoming a part of video content, as well as a discussion of the impacts of the COVID-19 pandemic on media consumption habits. This book remains a key text and trusted resource for students and scholars of digital mass communication and communication history alike. The new edition also features updated online instructor materials, including PowerPoint slides and test banks. Please visit [www.routledge.com/cw/medoff](http://www.routledge.com/cw/medoff) to access these support materials.

*Digital Technology: The World Of Our Own* Binayaka Mishra, 2022-05-12. Digital transformation, often referred to as DX or DT, is IT modernisation, for example, cloud computing to digital optimization, to the creation of new digital business models; all are examples of digital transformation. In general, it refers to the use of digital technology to significantly enhance or create new business processes. So, what exactly is digital transformation for businesses? It is the process of understanding consumer needs and using technology to enhance the end-user experience. End users may be either customers or workers, and many businesses must consider both. In the marketing department, for example, digital transformation may generate more high-quality leads and help firms get closer to their customers while spending less money than traditional analogue marketing tactics. Aside from experimenting with new technology, digital transformation entails rethinking your current approach to common challenges. A transition does not always have a clear finish, since it is an evolution. When it comes to the topic of what is digital transformation, the MIT Sloan Management Review, a journal that focuses on management transformations, noted that digital transformation is best viewed as

continuing adaptation to a constantly changing environment This implies that businesses must always seek methods to enhance the end user experience This might be accomplished via increasing on demand training migrating data to cloud services using artificial intelligence and other methods
