*The Math Teacher's Toolbox* Bobson Wong, Larisa Bukalov, 2020-06-04 Math teachers will find the classroom tested lessons and strategies in this book to be accessible and easily implemented in the classroom. The Teacher's Toolbox series is an innovative research based resource providing teachers with instructional strategies for students of all levels and abilities. Each book in the collection focuses on a specific content area. Clear, concise guidance enables teachers to quickly integrate low prep, high value lessons and strategies in their middle school and high school classrooms. Every strategy follows a practical how-to format established by the series editors. The Math Teacher's Toolbox contains hundreds of student friendly classroom lessons and teaching strategies. Clear and concise chapters fully aligned to Common Core math standards cover the underlying research required, technology, practical classroom use and modification of each high value lesson and strategy. This book employs a hands on approach to help educators quickly learn and apply proven methods and techniques in their mathematics courses. Topics range from the planning of units, lessons, tests and homework to conducting formative assessments, differentiating instruction, motivating students dealing with math anxiety and culturally responsive teaching. Easy to read content shows how and why math should be taught as a language and how to make connections across mathematical units. Designed to reduce instructor preparation time and increase student engagement and comprehension, this book explains the usefulness, application and potential drawbacks of each instructional strategy. Provides fresh activities for all classrooms. Helps math teachers work with ELLs, advanced students and students with learning differences. Offers real world guidance for working with parents, guardians and co-teachers. The Math Teacher's Toolbox: Hundreds of Practical Ideas to Support Your Students is an invaluable source of real world lessons, strategies and techniques for general education teachers and math specialists as well as resource specialists, special education teachers, elementary and secondary educators and teacher educators.

Staley, 2020-03-09 Empower students to be the change join the teaching mathematics for social justice movement. We live in an era in which students have through various media and their lived experiences a more visceral experience of social, economic and environmental injustices. However, when people think of social justice mathematics is rarely the first thing that comes to mind.

Through model lessons developed by over 30 diverse contributors this book brings seemingly abstract high school mathematics content to life by connecting it to the issues students see and want to change in the world. Along with expert guidance from the lead authors the lessons in this book explain how to teach mathematics for self and community empowerment. It walks teachers step by step through the process of using mathematics across all high school content domains as a tool to explore, understand and respond to issues of social injustice including environmental injustice, wealth inequality, food insecurity and gender, LGBTQ and racial discrimination. This book features Content cross referenced by mathematical concept and social issues. Downloadable instructional materials for student use. User friendly and logical interior design for daily use. Guidance for designing and implementing social justice lessons driven by your own students unique passions and challenges. Timelier than ever teaching mathematics through the lens of social justice will connect content to students daily lives fortify their mathematical understanding and expose them to issues that will make them responsive citizens and leaders in the future.

**The Well-Trained Mind** Susan Wise Bauer, Jessie Wise, 2016-08-09

Is your child getting lost in the system becoming bored losing his or her natural eagerness to learn? If so it may be time to take charge of your child's education by doing it yourself. The Well Trained Mind will instruct you step by step on how to give your child an academically rigorous comprehensive education from preschool through high school one that will train him or her to read to think to understand to be well rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium which organizes learning around the maturing capacity of the child's mind and comprises three stages the elementary school grammar stage when the building blocks of information are absorbed through memorization and rules the middle school logic stage in which the student begins to think more analytically and the high school rhetoric stage where the student learns to write and speak with force and originality. Using this theory as your model you'll be able to instruct your child whether full time or as a supplement to classroom education in all levels of reading writing history geography mathematics science foreign languages rhetoric logic art and music regardless of your own aptitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in The Well Trained Mind to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists links to an entirely new set of online resources new material on teaching children with learning challenges cutting edge math and sciences recommendations answers to common questions about home education and advice on practical matters such as standardized testing working with your local school board designing a high school program preparing transcripts and applying to colleges. You do have control over what and how your child learns. The Well Trained Mind will give you the tools you'll need to teach your child with confidence and success.
