*Building Comprehension in Every Classroom* Rachel Brown, Peter Dewitz, 2013-10-09 This book presents a practical model and specific unit and lesson planning ideas for enhancing students reading comprehension in any 2-8 classroom. The authors provide innovative suggestions that help teachers construct a comprehension curriculum organized around literature informational texts or a basal reading program. Vivid case examples and vignettes bring to life ways to build the knowledge strategies and motivation that children need to engage with different types of texts and become proficient enthusiastic readers. Graphic elements throughout the volume link instructional and assessment practices directly to the Common Core standards.

Using Beloved Classics to Deepen Reading Comprehension Monica Edinger, 2001 Teacher Monica Edinger shares fantastic literature response activities that encourage students to dig deep into favorite books mining them for meaning and connections to real life and other texts. As they analyze literary elements and interpret story events, students practice reading strategies and hone comprehension skills. Includes reproducible student response packets, discussion questions, literature connections, Internet links, and background information for units on Charlotte's Web, Cinderella, Alice in Wonderland, and The Wizard of Oz. For use with Grades 3-6.

Intelligent Computing Kohei Arai, 2023-08-31 This book is a collection of insightful and unique state-of-the-art papers presented at the Computing Conference which took place in London on June 22-23, 2023. A total of 539 papers were received, out of which 193 were selected for presenting after double-blind peer review. The book covers a wide range of scientific topics including IoT, Artificial Intelligence, Computing, Data Science, Networking, Data security, and Privacy, etc. The conference was successful in reaping the advantages of both online and offline modes. The goal of this conference is to give a platform to researchers with fundamental contributions and to be a premier venue for academic and industry practitioners to share new ideas and development experiences. We hope that readers find this book interesting and valuable. We also expect that the conference and its publications will be a trigger for further related research and technology improvements in this important subject.
