Ocean where numerous aircraft and ships have reported strange occurrences with some completely vanishing without trace. While some people dismiss the idea that there is something strange happening in the area, it is after all one of the busiest shipping lanes in the world with aircraft regularly flying over it. In 1492, Christopher Columbus experienced odd lights and strange compass readings. Despite this and many other incidents and disappearances in the area over the next few centuries, it wasn't until the latter half of the twentieth century that the idea of the Bermuda Triangle was firmly established.
