**Journalism in the Age of Virtual Reality** John V. Pavlik, 2019-09-17 With the advent of the internet and handheld or wearable media systems that plunge the user into 360° video, augmented or virtual reality technology is changing how stories are told and created. In this book, John V. Pavlik argues that a new form of mediated communication has emerged: experiential news. Experiential media delivers not just news stories but also news experiences in which the consumer engages with news as a participant or virtual eyewitness in immersive multisensory and interactive narratives. Pavlik describes and analyzes new tools and approaches that allow journalists to tell stories that go beyond text and image. He delves into developing forms such as virtual reality, haptic technologies, interactive documentaries and drone media, presenting the principles of how to design and frame a story using these techniques. Pavlik warns that although experiential news can heighten user engagement and

increase understanding it may also fuel the transformation of fake news into artificial realities and he discusses the standards of ethics and accuracy needed to build public trust in journalism in the age of virtual reality Journalism in the Age of Virtual Reality offers important lessons for practitioners seeking to produce quality experiential news and those interested in the ethical considerations that experiential media raise for journalism and the public *Apple Watch Series: The Ultimate Guide For All Apple Watch Band Series Users (The User manual Like No Other)* Phila Perry, 2019-12-13 Are you new to Apple Watch series and band or do you acquire a new Apple Watch Series 5 or willing to know more about what you can do with your Apple Watch Series 5 This is the guide for you as you would get simplified instructions to the shortcuts tips and tricks you should know about the new Apple Watch Series 5 and workarounds that would turn you into a guru in no time The Apple Watch Series 4 was announced in September 2018 but this product has been succeeded by the Apple Watch Series 5 Apple Watch Series 5 smartwatch sits alongside the Apple Watch Series 3 while Series 4 Series 2 Series 1 and the initial Apple Watch are discontinued To make things simple the Author Phila Perry has exclusive tips and task you can achieve with your new Apple Watch Series He has also compared the Apple Watch Series 5 to Series 4 and Series 3 here and that means you can see precisely what the variations and similarities are whether you are looking to upgrade or take the smartwatch plunge
