## **Netflix Price Open Now:**

Streaming Wheeler Winston Dixon, 2013-05-01 Film stocks are vanishing but the iconic images of the silver screen remain albeit in new sleeker formats Today viewers can instantly stream movies on televisions computers and smartphones Gone are the days when films could only be seen in theaters or rented at video stores movies are now accessible at the click of a button and there are no reels tapes or discs to store Any film or show worth keeping may be collected in the virtual cloud and accessed at will through services like Netflix Hulu and Amazon Instant The movies have changed and we are changing with them The ways we communicate receive information travel and socialize have all been revolutionized In Streaming Wheeler Winston Dixon reveals the positive and negative consequences of the transition to digital formatting and distribution exploring the ways in which digital cinema has altered contemporary filmmaking and our culture Many industry professionals and audience members feel that the new format fundamentally alters the art while others laud the liberation of the moving image from the imperfect medium of film asserting that it is both inevitable and desirable Dixon argues that the change is neither good nor bad it s simply a fact Hollywood has embraced digital production and distribution because it is easier faster and cheaper but the displacement of older technology will not come without controversy This groundbreaking book illuminates the challenges of preserving media in the digital age and explores what stands to be lost from the rich hues of traditional film stocks to the classic movies that are not profitable enough to offer in streaming formats Dixon also investigates the financial challenges of the new distribution model the incorporation of new content such as webisodes and the issue of ownership in an age when companies have the power to pull purchased items from consumer devices at their own discretion Streaming touches on every aspect of the shift to digital production and distribution It explains not only how the new technology is affecting movies music books and games but also how instant access is permanently changing the habits of viewers and influencing our culture

Social TV Cory Barker, 2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment Media Industries On March 15 2011 Donald Trump changed television forever The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real time reactions on Twitter generating more than 25 000 tweets and making the broadcast the most watched Roast in Comedy Central history The trumproast initiative personified the media and tech industries utopian vision for a multi screen and communal live TV experience In Social TV Multi Screen Content and Ephemeral Culture author Cory Barker reveals how the US television industry promised but failed to deliver a social media revolution in the 2010s to combat the imminent threat of on demand streaming video Barker examines the rise and fall of Social TV across press coverage corporate documents and an array of digital ephemera He demonstrates that despite the talk of disruption the movement merely aimed to exploit social media to reinforce the value

of live TV in the modern attention economy Case studies from broadcast networks to tech start ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period To trace these unfulfilled promises and flopped ideas Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing Yet in placing this now forgotten material in recent historical context Social TV shows how the era altered how the industry pursues audiences Multi screen campaigns have shifted away from a focus on live TV and toward all day content streams The legacy of Social TV then is the further embedding of media and promotional material onto every screen and into every moment of life
