 Baltimore Enoch Pratt free libr,1890 Just Culture Sidney Dekker,2018-09-07 A just culture is a culture of trust learning
 and accountability It is particularly important when an incident has occurred when something has gone wrong How do you
 respond to the people involved What do you do to minimize the negative impact and maximize learning This third edition of
 Sidney Dekker s extremely successful Just Culture offers new material on restorative justice and ideas about why your people
 may be breaking rules Supported by extensive case material you will learn about safety reporting and honest disclosure
 about retributive just culture and about the criminalization of human error Some suspect a just culture means letting people
 off the hook Yet they believe they need to remain able to hold people accountable for undesirable performance In this new
 edition Dekker asks you to look at accountability in different ways One is by asking which rule was broken who did it whether
 that behavior crossed some line and what the appropriate consequences should be In this retributive sense an account is
 something you get people to pay or settle But who will draw that line And is the process fair Another way to approach
 accountability after an incident is to ask who was hurt To ask what their needs are And to explore whose obligation it is to
 meet those needs People involved in causing the incident may well want to participate in meeting those needs In this
 restorative sense an account is something you get people to tell and others to listen to Learn to look at accountability in
 different ways and your impact on restoring trust learning and a sense of humanity in your organization could be enormous
