**UB-04 Handbook for Hospital Billing, with Answer Key** Claudia Birkenshaw, 2007 The first textbook that helps HIM professionals and students understand the differences between the UB 04 and the UB 92 and provides a global view of how the billing function should work in conjunction with the coding department. The Handbook provides accurate and timely information about the UB 04 and explains how and why ICD 9 CPT and HCPCS code conventions must be integrated with UB 04 HCFA 1450 and CMS 1450 billing conventions. The book teaches an individual how to complete a facility UB 04 billing form and contains vignettes that explain the billing office process, its components and reporting nuances. It will help HIM staff understand that coding conventions for billing are as important as ICD 9 coding conventions when sending a claim to an insurance company or payer and ensure that members of other departments, e.g. accounting, admitting, quality management understand how their indispensable contributions to the revenue cycle must be translated by billers to fit changing UB 04 Form Locator codes. The book contains an overview of basic payment methodologies plus 65 quizzes that can be used for self testing for performance evaluations or classwork assignments. This book will help hospitals and other health care providers maximize claim processing performance and revenue recovery and better manage their revenue cycle process.
