Understanding Your Young Teen Practical Wisdom For Parents:

Understanding Your Young Teen Mark Oestreicher, 2011-12-20 *Understanding Your Young Teen* is a book on early adolescent development for parents of young teens and pre teens. Parents of young teens will 1 Gain an understanding of the unique and not always obvious realities of early adolescent development. This new understanding can greatly enhance parents' patience, parenting approaches, and relationship with their child. 2 Review the developmental uniquenesses of the young teen years. Most parents don't fully appreciate the changes that are taking place in their teens' bodies, minds, and relationships. This resource will give them a solid understanding of those areas. 3 Explore new research and cultural changes. Parents will get a better understanding of the changing landscape of teen culture and see how much has changed since they were young teens. The bulk of the book will be based on the first half of Middle School Ministry. The developmental chapters will be re-written for parents and will not only include the developmental issues themselves but the practical implications for parenting and living with young teens. A strong pro young teen bias will permeate the book as my affection for young teens and conviction that this age is a great opportunity for faith formation will be woven through all chapters. While the book will be based on research and experience, the tone will be conversational from one parent of young teens to others. First person tense will be used throughout along with examples from my family and extensive involvement with young teens.

How do we sift through the unending philosophies on parenting and be intentional in how we choose what's best for our family? The number of voices is overwhelming. This book distills the essential elements of parenting so you can apply them in your own home. It approaches parenting from a Christian perspective and is filled with practical advice that is applicable to everyone. As we explore the foundations of parenting, we will look at: Parenting: What are the stages of parenting? What is the current state of parenting? What is the purpose of parenting? Parenting styles: What are they and which ones should I be using? What might I need to alter about my current parenting style? Progression of parenting: What are the skills our children need to learn? Time: What does quality time and being present with my kids look like? Communication: How can I gain better communication skills so that I can more effectively connect with my kids? Discipline: How do I effectively discipline my children? Family discipleship: Why is our worldview important and how we can raise kids with a Christian worldview?
