Enemy John Robert Nordell, 1995 The French Indo China War of 1946-54 was one of the longest and bloodiest conflicts of the twentieth century Dien Bien Phu became the site of the decisive battle of the French Indo China War Indeed the French defeat at Dien Bien Phu set the stage for America's own military involvement in Viet Nam a decade later Yet despite its historic importance there is still uncertainty about why the French chose to fight in a location that in hindsight involved such risks In *The Undetected Enemy* John Nordell examines that question by telling the full story of the strategic tactical logistical and intelligence considerations that underlay the French decision This book also gives close attention to the reaction of the Eisenhower administration to the French seizure of Dien Bien Phu an important part of the story that until now has been overlooked Using war memoirs press coverage and archived documents only recently declassified the author weaves a compelling narrative of rapidly unfolding developments in Dien Bien Phu Hanoi Saigon and Washington D C **Tears for**

Breakfast Mary Murray, 2008 *Offensive to a Reasonable Adult* Robert Cetti, 2014-09-01 Thoroughly researched and fully APA referenced chronological history of film censorship and classification in Australia Case by case histories of banned films punctuate a detailed account of the evolution of the Australian Film Classification system and the concurrent development of the Australian adult XXX industry culminating in the establishment of the Australian Sex Party Former SAR Research Fellow at Australia's National Film Sound Archive Robert Cetti gained exclusive access to both the national collection and the highly restricted Australian adult industry archive the Eros Collection at the Flinders University of South Australia Library to piece together the complete history of film censorship in Australia Progressing through individual banned and censored films including works by such internationally renowned directors as Hitchcock Whale Bunuel Forman Godard Oshima Pasolini Hopper Lyne Breillat Noe Brass Bertolucci Fellini Ford Clark Desportes Winterbottom Von Trier Cetti maps out the specification of offensive material in parallel to the emergence of Australia's adult XXX industry and the Christian morals driven pressure groups that advocate tighter censorship restrictions In a country that has the dubious honor of being the most censorial of Western democracies film censorship is based on the principle of offense to a reasonable adult an undefined refrain that religious minorities have used to manipulate censorship decisions in their favor The history of these groups and the political support for their right wing Christian agenda driven by what Australians term Wowserism makes

Australian film censorship unique in its delineation of the aesthetics of offense as grounds for the suppression of free dissemination to the point of seeking mandatory ISP Internet filtering and Internet blacklisting of all material classified RC or refused classification much of which is available for dissemination throughout Europe and the USA in violation of UN Human Rights Article 19 In this comprehensive study of the socio political ideology surrounding the censorship of primarily sexually explicit material pornography Cettl delineates the aesthetic construction of offense as a transgressive genre and charts the morality driven religiosity behind their construction as Other to a civilized society questioning whether the categorization of such material as other makes of it legitimate discourse With extensive case histories never before published government censorship reports press clippings and secret internal memos between some of Australia s most powerful and influential politicians Offensive to a Reasonable Adult exposes the quagmire of Australian censorship law and the morals cabal of wowsers that dominate the censorship agenda in the so called Clever Country

1914: The Year the World Ended Paul Ham, 2014 Few years can justly be said to have transformed the earth 1914 did In July that year Germany Austria Hungary Russia Britain and France were poised to plunge the world into a war that would kill or wound 37 million people tear down the fabric of society uproot ancient political systems and set the course for the bloodiest century in human history In the longer run the events of 1914 set the world on the path toward the Russian Revolution the Treaty of Versailles the rise of Nazism and the Cold War In 1914 The Year the World Ended award winning historian Paul Ham tells the story of the outbreak of the Great War from German British French Austrian Hungarian Russian and Serbian perspectives Along the way he debunks several stubborn myths European leaders for example did not stumble or sleepwalk into war as many suppose They fully understood that a small conflict in the Balkans the tinderbox at the heart of the continent could spark a European war They well knew what their weapons could do Yet they carried on They accepted and in some cases even seemed to relish what they saw as an inevitable clash of arms They planned and mapped every station on the path to oblivion These pied pipers of the apocalypse chose war in the full knowledge that millions would follow and die on their orders 1914 The Year the World Ended seeks to answer the most vexing question of the 20th century Why did European governments decide to condemn the best part of a generation of young men to the trenches and four years of slaughter during which 8.5 million would die

IRA, The Bombs and the Bullets A. R. Oppenheimer, 2008-10-16 In this groundbreaking title A R Oppenheimer tells how the Irish Republican Army became the most adept and experienced insurgency group the world has ever seen through their bombing expertise and how after generations of conflict it all came to an end The book is a comprehensive account of more than 150 years of Irish republican strategic tactical and operational details and an analysis of the IRA s mission doctrine targeting and acquisition of weapons and explosives As a leading expert on non conventional weapons and explosives Oppenheimer vividly presents the story behind the bombs those who built and deployed them those who had to deal with and dismantle them and those who suffered or died from them He analyses where how and why the IRA

s 19 000 bombs were built targeted and deployed and explores what the IRA was hoping to accomplish in its unrivaled campaign of violence and insurgency through covert acquisition training intelligence and counter intelligence Beginning with the Fenian Dynamiters in the second half of the nineteenth century Oppenheimer fully describes and assesses the impact of the pre 1970s bombing campaigns in Northern Ireland and England and the evolution of strategies and tactics during the Troubles He concludes with the decommissioning of an arsenal big enough to arm several battalions which included an entire home crafted missile system an unsurpassed range of improvised explosive devices IEDs and enough explosives to blow up several urban centres The author scrutinises the level of deadly improvisation that became the hallmark of the Provisional IRA s expertise and the ingenuity in its pioneering IED timing delay and disguise technologies and follows the arms race it carried on with the British Army and security services in a long war of mutual assured disruption He also provides an insight into the bombing equipment and guns in the vast IRA inventory held at Irish Police HQ in Dublin The Commander

Timothy M Nugent,2025-06-22 The final chapter of this story shows the commander falling in love with a friend and sailing his ship into the sunrise with his new love hugging him at the wheel I like to write and do so every day I awake at three or four in the morning and begin to write as the sun rises in the east over the Costa Rican mountains I live in San Luis Costa Rica Canton Tilar n in the province of Guanacaste This morning the skies are cloudy after a rainstorm and the sun is rising Normally the skies turn a beautiful shade of orange mixed into the clouds of gray black and skies of bright blue I love the sunrises and sunsets of Lake Arenal The sunsets of the western skies fall over the western mountains and light up the skies The sun reflects off the lake and into the eastern skies It is a beautiful phenomenon as a portion of the lake is bright orange and the blue is diminishing because of the twilight It is easy to write in this quiet environment The later in the day I write the more difficult it becomes and I usually stop around nine because construction and my girlfriend seem to need more attention Such a tough life living in paradise and having someone who loves you My next book I am writing is a story of a young boy who gets lost in the world of perversions and hate It is a difficult book because of the negative aspects of child molestation that grips a baby at a young age and turns him into a monstrous killer who seeks a lifetime of revenge The Commander is a young hero from the early age of sixteen to his older age as he leaves the Navy I hope you enjoy this book **New York**
