 Mayer, 2020-02-13 Enlightenment both the phenomenon specific to the eighteenth century and the continuing trend in
 Western thought is an attempt to dispel ignorance achieve mastery of a potentially hostile environment and contain fear of
 the unknown by promoting science and rationality Enlightenment is often accompanied and challenged by countercultures
 such as German Romanticism which explored the nature of fear and deployed it as a corrective to the excesses of rationalism
 The Aesthetics of Fear in German Romanticism uncovers the formative role this movement played in the development of dark
 or negative aesthetics Recovering a missing chapter in the history of the aesthetics of fear Paola Mayer illustrates that
 Romanticism was a crucial transitional phase between the eighteenth century sublime and the early twentieth century
 uncanny Mayer puts literature and philosophy in dialogue examining how German Romantic literature employed narratives
 of fear to radicalize and then subvert the status quo in society culture and science She traces the development of this
 aesthetic from its inception with pre Romantics such as Jean Paul Richter to its end in Joseph von Eichendorff's critical
 retrospective and juxtaposes canonical authors such as E T A Hoffmann the father of the modern fantastic with writers who
 have previously been ignored Today when the dark side of science looms in the foreground The Aesthetics of Fear in German
 Romanticism points to the power of a literary movement to construct competing currents of thought *E.T.A. Hoffmann im*
