The Handbook of Technology and Second Language Teaching and Learning Carol A. Chapelle, Shannon Sauro, 2017-06-28
The Handbook of Technology and Second Language Teaching and Learning presents a comprehensive exploration of the impact of technology on the field of second language learning. The rapidly evolving language technology interface has propelled dramatic changes in and increased opportunities for second language teaching and learning. Its influence has been felt no less keenly in the approaches and methods of assessing learners' language and researching language teaching and learning. Contributions from a team of international scholars make up the Handbook, consisting of four parts: language teaching and learning through technology; the technology pedagogy interface; technology for L2 assessment and research; and development of technology for language learning. It considers how technology assists in all areas of language development: the emergence of pedagogy at the intersection of language and technology; technology in language assessment; and major research issues in research and development of technologies for language learning. It covers all aspects of language, including grammar, vocabulary, reading, writing, listening, speaking, pragmatics, and intercultural learning, as well as new pedagogical and assessment approaches and new ways of conceiving and conducting research and development. The Handbook of Technology and Second Language Teaching and Learning demonstrates the extensive, multifaceted implications of technology for language teachers, learners, materials developers, and researchers.

It's Time to Talk. Unidos is a first. Incorporates the flip teaching model into its highly flexible approach. Capitalizes on using technology so that valuable class time is focused on applying knowledge rather than for instruction; it literally flips the nature of what typically takes place in class and out of class. Instead of first learning in the classroom and then practicing learned material out of class, students learn outside of class and then apply what they have learned in the communicative environment of the classroom. Teaching face to face, hybrid, or fully online. Save Time Administering Your Course. The Unidos online component offers the most powerful instructor tools available to help instructors efficiently manage their courses. Manage Varied Proficiency Levels. With its array of adaptive learning tools and individualized tutorials, the online component to Unidos tailors learning to every student's individual needs and provides the support they need to come to class prepared to engage and to communicate.
