*Prescription for the People* Fran Quigley,2017-11-15 In Prescription for the People Fran Quigley diagnoses our inability to get medicines to the people who need them and then prescribes the cure He delivers a clear and convincing argument for a complete shift in the global and U S approach to developing and providing essential medicines and a primer on how to make that change happen Globally 10 million people die each year because they are unable to pay for medicines that would save them The cost of prescription drugs is bankrupting families and putting a strain on state and federal budgets Patients desperate need for affordable medicines clashes with the core business model of the powerful pharmaceutical industry which maximizes profits whenever possible It doesn t have to be this way Patients and activists are aiming to make all essential medicines affordable by reclaiming medicines as a public good and a human right instead of a profit making commodity In

this book Quigley demystifies statistics and terminology offers solutions to the problems that block universal access to medicines and provides a road map for activists wanting to make those solutions a reality **Cruising World** ,1991-10

**Awakening to China's Rise** Hugo Meijer,2022-08-01 Awakening to China's Rise provides the most comprehensive analysis to date of how Europe's major powers have responded to the re emergence of China as a great power in world politics since the end of the Cold War To do so it puts forward a unique cross regional comparison of how the major European powers France Germany and the United Kingdom have confronted Chinese assertiveness both in the Asia Pacific and in Europe Firstly it analyses their response to China's increasingly muscular regional posture in the Asia Pacific through the development of diplomatic and security initiatives with partners in the region Secondly it delineates how they have confronted China's inroads into Europe looking at the measures that they have taken to tackle Chinese investments in and supply of technologies in strategic sectors such as critical national infrastructures dual use technologies and in the digital domain including Huawei's 5G networks A longstanding assumption in the IR literature has been that European foreign policies toward the People's Republic of China have been driven by a na ve and self interested focus on the economic opportunities presented by such a vast market overlooking security considerations This book challenges such common belief through a detailed examination of the policies of France Germany and the United Kingdom from 1989 to the present Its central argument is that whereas this assessment aptly characterized the first two post Cold War decades Beijing's growing assertiveness after 2009 caused the three major European powers to awaken to China's rise In the 2010s heightened threat perceptions of China coupled with increasingly competitive bilateral economic relations with the PRC have gradually and cumulatively caused the hardening of their policy goals which in turn translated into the formulation of new policy instruments to confront such a challenge To substantiate this argument the book relies on a large body of previously undisclosed primary sources including 223 interviews conducted with senior officials in Europe Berlin Brussels London Paris in the United States Washington DC and in Asia Beijing Shanghai New Delhi Seoul declassified archival documents from France the UK and Germany leaked US diplomatic cables and new data on European naval deployments **Cruising World** ,1991-09 **The United States Catalog** Mary Burnham,Carol Hurd,1928 **United States Investor** ,1908 **Catalog** Yale University.
