### **Speech-Language**

**Pathology Casebook** Ryan C. Branski, Sonja Molfenter, 2020-02-29 Exceptionally insightful speech language pathology textbook highlights individual cases to augment learning. Speech Language Pathology Casebook by Ryan Branski, Sonja Molfenter and an impressive array of contributors presents a diverse spectrum of cases covering communication, voice and swallowing disorders in children and adults. Readers are provided with rich and varied narratives underscoring the fact that clinical intervention of speech language disorders is an art form based on science. Evidence based assessments and treatments cover a variety of settings including medical inpatient, outpatient and skilled nursing facility, home health, school, community based and private practice. Eighty cases following a standardized format encompass a wide range of congenital and acquired disorders spanning the age continuum. Each case includes a clinical history and description, evaluations, testing, diagnosis, treatment, outcomes, questions and answers, suggested readings and references. With invaluable firsthand insights from practitioners, this unique resource enhances the ability to develop effective patient informed interventions. Key Highlights: Discussion of problems frequently omitted from typical curricula but increasingly relevant to contemporary clinical practice, ranging from telepractice to transgender voice modification. Speech related issues in children associated with cleft palate, autism spectrum disorder, stuttering, bilingual language delays, severe intellectual disability, congenital porencephaly, FASD, apraxia and many others. Medical conditions in adults that impact speech language such as traumatic brain injury, ALS, right hemisphere disorder, stroke, autoimmune encephalopathy, dementia, Parkinson's disease, autism and more. Videos, audio, bulleted key points and handy comparative charts provide additional pearls. The detailed case narratives enable speech language students to connect and apply theory and knowledge acquired in the classroom to real life clinical practice. Instructors and speech language pathologists will also benefit from this excellent teaching and clinical reference.

[Older Autistic Adults](#) Wilma Wake, Eric Endlich, Robert S. Lagos, 2021-04-10 The first of its kind, *Older Autistic Adults* is the result of the authors' original research which examines the data retrieved from a survey given to 150 older autistic adults worldwide. The insight into the lives and experiences of these individuals from a time before support groups, school based interventions and even the autism diagnosis is important and fascinating. Combined with a brief history of autism, an overview of *The Nine Degrees of Autism* by Wylie Lawson Beard on in relation to older autistic adults and personal stories from the survey's participants, this book is a must read.

[Neurodiversity in the Early Years](#) Cheryl Warren, 2025-04-18 How we support children in their early years to understand, to be accepted for their unique differences and to thrive has a life long impact. With a neuro affirming, strength based narrative running throughout this accessible book, it will improve your knowledge, skillset and practical application of high quality neuro inclusive practice. In exploring the best practice to assist young neurodivergent children navigating the world, these eight succinct chapters will explore key topics including how to create an environment to enable children to feel safe in your space, provide advice on how to work in a connective partnership with parents to enable a family to thrive and how to create a whole setting approach to neuro inclusion. Include a range of first

hand accounts and case studies to bring theory to life Suggest a wealth of strategies that can be easily applied and will ensure that all children feel safe connected and can achieve Neurodiversity in the Early Years enables the reader to embrace and embed knowledge and to advocate for a change which will provide neurodivergent children with the foundations of belonging acceptance and a celebration of who they are It will be key reading for all early years educators working with children from 2 to 5 years old

Sam's Best Shot James Best,2017-07-26 A father and son s life changing journey through Autism adolescence and Africa Inspiring entertaining and a beacon of hope for those touched by autism Life with a teenage boy on the autism spectrum has its challenges Fourteen year old Sam is a world authority on Harry Potter but can t get to the corner store on his own Sam s parents Dr James Best and Benison O Reilly decide to think radically to help their son They sell the family home to finance a six month long trip to Africa for James and Sam in the hope that it will have far reaching and life changing results for Sam Their plan is to take Sam a long way out of his comfort zone so that he has to face new challenges and learn to navigate the completely unexpected and that the exposure of all of these new experiences will help Sam grow emotionally and conversationally to achieve what he hasn t been able to in a familiar environment The results were extraordinary and will give hope to many families dealing with autism Sam s Best Shot is the moving and inspiring account of the amazing journey James and Sam took through the teeming cities and stunning landscapes of ten African countries nerve wracking and hugely challenging but also transformative fulfilling and entertaining This is a father and son story like no other James Best and his son travel across Africa in the search for nothing other than randomness and unpredictability It presents as a travelogue with autism as a sub plot but in fact it is a divine love story of a father and son who are bound together in the adventure of their lifetime

Autistic individuals struggle for decades before discovering who they truly are. They are also more likely to be marginalized in terms of race, gender, sexual orientation, class, and other factors which contributes to their suffering and invisibility. Dr. Price lays the groundwork for unmasking and offers exercises that encourage self-expression including Celebrating special interests, Cultivating Autistic relationships, Reframing Autistic stereotypes, And rediscovering your values. It's time to honor the needs, diversity, and unique strengths of Autistic people so that they no longer have to mask and it's time for greater public acceptance and accommodation of difference. In embracing neurodiversity we can all reap the rewards of nonconformity and learn to live authentically Autistic and neurotypical people alike.

**Unmasking Autism** Devon Price, 2022-04-05 A deep dive into the spectrum of Autistic experience and the phenomenon of masked Autism giving individuals the tools to safely uncover their true selves while broadening society's narrow understanding of neurodiversity. A remarkable work that will stand at the forefront of the neurodiversity movement. Barry M. Prizant, PhD, CCC-SLP, author of *Uniquely Human: A Different Way of Seeing Autism*. For every visibly Autistic person you meet there are countless masked Autistic people who pass as neurotypical. Masking is a common coping mechanism in which Autistic people hide their identifiably Autistic traits in order to fit in with societal norms, adopting a superficial personality at the expense of their mental health. This can include suppressing harmless stims, papering over communication challenges by presenting as unassuming and mild mannered, and forcing themselves into situations that cause severe anxiety all so they aren't seen as needy or odd. In *Unmasking Autism*, Dr. Devon Price shares his personal experience with masking and blends history, social science research, prescriptions, and personal profiles to tell a story of neurodivergence that has thus far been dominated by those on the outside looking in. For Dr. Price and many others, Autism is a deep source of uniqueness and beauty.

Unfortunately, living in a neurotypical world means it can also be a source of incredible alienation and pain. Most masked Autistic individuals struggle for decades before discovering who they truly are. They are also more likely to be marginalized in terms of race, gender, sexual orientation, class, and other factors which contributes to their suffering and invisibility. Dr. Price lays the groundwork for unmasking and offers exercises that encourage self-expression including Celebrating special interests, Cultivating Autistic relationships, Reframing Autistic stereotypes, And rediscovering your values. It's time to honor the needs, diversity, and unique strengths of Autistic people so that they no longer have to mask and it's time for greater public acceptance and accommodation of difference. In embracing neurodiversity we can all reap the rewards of nonconformity and learn to live authentically Autistic and neurotypical people alike.
