Understanding The Sustainable Development Of Tourism:

Understanding the Sustainable Development of Tourism Janne J. Liburd, Deborah Edwards, 2010-05-31 This text provides tourism students, educators, industry planners, researchers, managers, and operators with the latest thinking on a comprehensive range of themes addressing the sustainable development of tourism. [Tourism and Sustainable Community Development](#) Derek Hall, Greg Richards, 2002-09-11 As the tourist industry becomes increasingly important to communities around the world, the need to develop tourism in a sustainable manner has also become a primary concern. This impressive collection of international case studies addresses this crucial issue by asking what local communities can contribute to sustainable tourism and what sustainability can offer these local communities in return. The role of the community in environmental, cultural, and economic sustainability is highlighted in an extraordinary variety of contexts, ranging from inner city Edinburgh to rural northern Portugal and the beaches of Indonesia. Individually the investigations in this text present a wealth of original research and source material, while collectively they illuminate and clarify the term 'community', the meaning of which it is argued is vital to understanding how sustainable tourism development can be implemented in practice.

Tourism and Sustainable Development Jrn W Mundt, 2011 Sustainability is a central term in today's political rhetoric. At the same time, sustainable development is one of the notions which mainly base on an intuitive public understanding and mark ideas almost nobody would deny. Thus, even in scientific discourse and particularly in tourism, the term sustainability is often being used without scrutiny. This volume by Jrn W Mundt contributes to a deeper understanding of the concept of sustainability by providing a closer look at the original definition and reviewing its conceptual history, which helps to untangle the terminological confusion. Finally, the book demonstrates that sustainable tourism cannot be a political objective in its own right and is only achievable within the context of an overall sustainable economy.
