ANSWER

However, there are a couple more (2-3) issues that could potentially impact our final forecasted results and other outcomes, however it is not necessary to consider these factors for purposes of this study, at this point. The first consideration is uncertainty. When using any given predictor model, uncertainty is a critical element, since the model's outcomes, if it is not a deterministic, and uses randomness, that makes it difficult to predict the outcome with 100% accuracy.

The origins of *conservatism* should look to the theoretical roots of every movement, a general need to unify a national culture, a desire to impose their meaning, and an effort that has been to reinforce the structures of hierarchy, of control, and of authority, of naming, defining, and classifying. The movement has attempted to stabilize these structures, derived from a preexisting power, and applied several tools to achieve, maintain, and reinforce them. And this effort began in the 1950s, reaching its maximum as much as in subsequent times. The movement created two broader organizations in 1968, the *Confederation of the Free University Students* (Confed) and the *Confederation of the Free University Professors* (Confap).

Library Programs and Services for New Adults Kyla Hunt, 2017-10-06 Addressing the needs of new adults those ages 18-29 in the library is an important challenge. This book explains the needs and wants of new adults in the public library setting and identifies their preferences in physical space programming and technology. According to the Pew Research Center's 2015 Libraries at the Crossroads Report 52 percent of people between the ages of 16 and 29 visited a bookmobile or library within the past year. Yet many public libraries programming and outreach skip over this demographic jumping from teen services to older adults. Library Programs and Services for New Adults provides a road map for including new adults into the family of the small public library and offers a variety of resources and programming ideas that librarians can use immediately. Author Kyla Hunt a library technology and trends specialist explains why the needs of new adults are typically overlooked at public libraries defines who new adults are and explains why serving their needs is key to the success of today's public libraries. Readers will come away with an in depth understanding of the mindset and needs of patrons who are 18 to 29 years old and be able to cater to their preferences as they pertain to physical space programming technology and marketing.

*Social Media and Library Services* Lorri Mon, 2022-05-31 The rise of social media technologies has created new ways to seek and share information for millions of users worldwide but also has presented new challenges for libraries in meeting users where they are within social spaces. From social networking sites such as Facebook and Google and microblogging platforms such as Twitter and Tumblr to the image and video sites of YouTube Flickr Instagram and to geotagging sites such as Foursquare libraries have responded by establishing footholds within a variety of social media platforms and seeking new ways of engaging with online users in social spaces. Libraries are also responding to new social review sites such as Yelp and Tripadvisor awareness sites including StumbleUpon Pinterest Goodreads and Reddit and social question and answer Q A sites such as Yahoo Answers sites which engage social media users in functions similar to traditional library content curation readers advisory information and referral and reference services. Establishing a social media presence extends the library's physical manifestation into virtual space and increases the library's visibility reach and impact. However beyond simply establishing a social presence for the library a greater challenge is building effective and engaging social media sites that successfully adapt a library's visibility voice and presence to the unique contexts audiences and cultures within diverse social media sites. This lecture examines the research and theory on social media and libraries providing an overview of what is known and what is not yet known about libraries and social media. Chapter 1 focuses on the social media environments within which libraries are establishing a presence including how social media sites differ from each other yet work together within a social ecosystem. Chapter 2 examines how libraries are engaging with users across a variety of social media platforms and the extent to which libraries are involved in using these different social media platforms as well as the activities of libraries in presenting a social self sharing information and interacting with users via social media. Chapter 3 explores metrics and

measures for assessing the impact of the library's activity in social media sites. The book concludes with Chapter 4 on evolving directions for libraries and social media including potential implications of new and emerging technologies for libraries in social spaces.
