Time Meddlers On The Nile:

Time Meddlers on the Nile Deborah Jackson, 2013 *For the Love of Mars* Deborah Jackson, 2023-04-30 Mars resembles Earth in many ways except it's dead and red. But terraformed Mars is greening up. And life exists on the surface below ground and in a mysterious Robot Graveyard. More on that later. Lucas Wilson, an astronaut on Mars and member of the Gilgamesh Movement, a terrorist organization, has been instructed to prepare the planet for imminent colonization and do away with his fellow astronauts after he sabotaged Earth's climate. But even after killing hundreds of thousands on Earth, he is reluctant to take this final step. The question is how can he oppose the organization's leader Samson Teshda, a man who has devoted his entire existence to annexing the planet for his own people. This man has stridden over the boundaries of Earth's laws and civil society. He's even pushed the boundaries of evolution, creating genetic enhancements that provide extraordinary advantages, all for the love of Mars. But for the love of Mars, how can he not? The man is psychotic as much a threat to their survival as terrifying terraformed Mars itself.

Mosaic Deborah Jackson, 2014-09-30 It wasn't until Carlos helped me put the pieces back together that I realized how many were missing. Shattered, Tormented Brain on disconnect. A car accident leaves Erin Rocheford, a seventeen-year-old hockey player, fractured, disfigured, near death. Not only has her future career in the NHL been erased, but when she's finally released from the hospital, she can barely walk, her thoughts stumble into each other, and people grimace when they see the scars crisscrossing her face. Erin's parents decide that a vacation in Florida, on an island of palm trees and pirate lore, is just what she needs to recover. But in her post-traumatic state, Erin is vulnerable to attack, to a ghostly invasion, and to a further fragmenting of her troubled grey matter. Soon after arriving on the island, a tale of an odd English pirate and his feisty captive, a story of defiance and decapitation, weaves itself into her mind, threatening her very soul. Erin will need to call upon every reserve in her hockey-toned body to keep from falling apart altogether, to fight back, and to protect her star player, the one boy who can see beyond the scars.

Mosaic Deborah Jackson's fourth young adult novel involves young lovers, pirates, murder, ghosts, and hockey, in short, something for everyone. The Ottawa-based writer has structured a suspenseful action-filled novel which will appeal to an older teen audience. Jackson considered *Mosaic* an experiment in structuring a novel to match its theme. Her experiment is definitely a success.

Ruth Latta Apartment 613 *The Furies' Bog* Deborah Jackson, 2016-08-29 A bog may be Earth's undoing, but it will be a gift to Mars. Digging up bog bodies and analyzing corpses are the last things archaeology graduate student Felicity Cratchett wants to do. And when unusual mummies are discovered in the subpolar region of Polar Bear Provincial Park, it's the last place she wants to go. But since her faculty advisor insists that she log more hours in fieldwork, she has little choice. In a remote bog, with a small team of scientists, Felicity unearths the greatest secret of our time, a secret with ties to ancient Rome, roots in Botswana, and a link to the first people to exercise abstract thought. This revelation will challenge the conventional theory of human origins and human evolution. Meanwhile, astronaut Lucas Wilson, a man tormented with a deep-seated anger, is terraforming

Mars He reluctantly descends to the Red Planet's surface with his fellow astronauts preparing to direct their exploration Mars in its birth pangs will challenge every step he takes with gas explosions and raging rivers with damaged fuel processors and limited oxygen supplies In the midst of these disasters Lucas must keep his companions from discovering a feat of genetic engineering that will transform Mars like nothing has in over a billion years The double helix of this masterwork twists all the way back to Earth and Felicity's mummies But if he fails Lucas must decide whether to take up Mars's sword or to cast the weapon into a bog

Five Stars In The Furies Bog Deborah Jackson's writing style is crisp and lively with humor emotion and the human condition written in each character and event that occurs Long and Short Reviews Furies Bog is a fast paced Science Fiction Thriller combined with a Historical Mystery A combination of Michael Crichton Steve Berry and Dan Brown three authors I enjoy very much Kim Heniadis Book Influencer McMillan Library [Sinkhole](#) Deborah Jackson,2012-11-30 Can the Lords of Death be fooled Zotz was a bat but not just any bat said Megan He was a vampire bat like those we saw in the cave above In Mayan legend he played a part in the story of two brothers who upset the Lords of Death and were forced to travel to the Underworld called Xibalba There they had to pass several death defying tests They hid in the house of Zotz but when one of them peered out Zotz swooped down and tore off his head Lovely said Kat Most of the Mayan legends are similarly gruesome But in the story the other brother managed to reattach the head In the end they fooled the Lords of Death Kat Delaney is a world class caver and microbiologist While investigating one of the deepest caves on Earth she becomes trapped along with her team of fellow cavers and scientists Far below the ruins of a Mayan city they struggle to escape this mysterious cave reportedly cursed and haunted by the Lords of Death Kat's husband Mark a doctor and pioneer of nanotechnology with a deep rooted fear of caves must try to rescue her He enlists the help of a Mayan guide who turns out to have revolutionary ambitions Kat must keep her unravelling team together when they discover that something as threatening as the Lords of Death lurks within the cave Mark must choose between trusting a guide who is patently untrustworthy or leaving Kat to die Will they escape Will science be the solution Or will it simply affirm their sentence as the Lords of Death win once again Five Stars Deborah Jackson explores a variety of human weaknesses and strengths as she leads her characters through the sinkhole and beyond in their quest for fame fortune and a miracle cure for disease Sinkhole not only features a place where the action occurs but also represents the depths of the participants feelings The meaning of love life and loss are explored as these explorers fight for their lives amidst amazing discoveries Melinda Hills Readers Favorite With its fast paced action and rich scientific details this thriller is a pleasure to read In particular I enjoyed the fascinating references to biology caving microsurgery revolutionary politics and Maya culture which were interspersed among a healthy dose of exhilarating adventure Alejandro Bustos Apartment 613 [Ice Tomb](#) Deborah Jackson,2004-05-10 Deep within the heart of the Antarctic Ice Sheet lies a deadly secret The year is 2015 A hotspot suddenly appears on satellite tracking in the Antarctic Ice Sheet The US science team sent from McMurdo Station to investigate finds

an icy graveyard Minutes later their transmission is cut off The last sounds heard over the radio are their screams NASA lures volcanologist Erica Daniels to a conference in Houston by promising to consider her for their upcoming mission establishing the first moon base Instead her archrival and ex lover David Marsh gets the plum assignment while she s sent to Antarctica to lead a new team beneath the ice An irritating British archaeologist and a brilliant Russian astrophysicist join her on a journey through unforgiving snowscapes and mysterious ice tunnels They present her with extraordinary suggestions for the origin of the hotspot Along the way Erica unearths scientific marvels that might just prove her own theory But why is the ice sheet littered with bodies Is the activity under the ice the remnants of an ancient civilization or is there a more sinister explanation To discover the truth Erica will have to join forces with the man she despises a man who s on the moon Editor s Pick She may be a new kid on the science fiction block but Ottawa writer Deborah Jackson could well rank up there one day with the likes of Isaac Asimov or Arthur C Clarke Ice Tomb is surprising not just for its entirely believable plot and well crafted suspense but because it has all the earmarks of a tale written by a sci fi master Mike Gillespie Ottawa Citizen Top Pick Ice Tomb is set in the near future and the science in the fiction is very plausible A fast paced story with plenty of twists this book reads like a classic sci fi tale The characters are well drawn the action plentiful and the outcome surprising RT BOOKclub Magazine
