Depth Psychology and Mysticism Thomas Cattoi, David M. Odorisio, 2018-05-16 Since the late 19th century when the new science of psychology and interest in esoteric and occult phenomena converged leading to the discovery of the unconscious the dual disciplines of depth psychology and mysticism have been wed in an often unholy union Continuing in this tradition and the challenges it carries this volume includes a variety of inter disciplinary approaches to the study of depth psychology mysticism and mystical experience spanning the fields of theology religious studies and the psychology of religion Chapters include inquiries into the nature of self and consciousness questions regarding the status and limits of mysticism and mystical phenomenon and approaches to these topics from multiple depth psychological traditions Controversy and Challenge Herman Westerink, 2009 In this study the engagement of scholars in theology and religious studies with Freudian psychoanalysis is examined The book focuses on the explicit or implicit theological ideas and aims that have determined its reception The analysis includes a review of Freud's theories as suggestions for reconfigurations of psychoanalysis are made in order to further theorize on concepts or fields of attention that are important in theology and religious studies The aim of this double critical review is to establish what the theoretical potential of Freud's psychoanalysis might be *The Oxford Handbook of the Book of Revelation* Craig Koester, 2020-06-12 The Book of Revelation holds a special fascination for both scholars and the general public The book has generated widely differing interpretations yet Revelation has surprisingly not been the focus of many single volume reference works The Oxford Handbook of the Book of Revelation fills a need in the study of this controversial book Thirty essays by leading scholars from around the world orient readers to the major currents in the study of Revelation Divided into five sections Literary Features Social Setting Theology and Ethics History of Reception and Influence and Currents in Interpretation the essays identify the major lines of interpretation that have shaped discussion of these topics and then work through the aspects of those topics that are most significant and hold greatest promise for future research Narratives of fear and safety Kaisa Kaukiainen, Kaisa Kurikka, Hanna Mäkelä, Elise Nykänen, Sanna Nyqvist, Juha Raipola, Anne Riippa, Hanna Samola, 2020-09-01 The essays in this edited volume written in English and French tackle the intriguing problems of fear and safety by analysing their various meanings and manifestations in literature and other narrative media The articles bring forth new cross cultural interpretations on fear and safety through examining what kinds of genre specific means of world making narratives use to express these two affectivities The articles also show how important it is to study these themes in order to understand challenges in times of global threats such as the climate crisis The main themes of the book are approached from various theoretical perspectives as related to their literary and cultural representations Recent trends in research such as affect and risk theory serve as the basis for the discussion The articles in the volume also draw from disciplines such as gender studies and trauma studies to examine the threats posed by collective fears and aggression on individuals lives and propose ways of coping with fear These themes are addressed also

in articles analysing new adaptations of old myths that retell stories of the past Many of the articles in the volume discuss apocalyptic and dystopian narratives that currently permeate the entire cultural landscape Dystopian narratives do not only deal with future threats such as totalitarianism technocracy or environmental disasters but also suggest alternative ways of being and new hopes in the form of political resistance

Women and Miracle Stories Anna Korte, 2018-11-13 This book contains a multidisciplinary collection of studies on women in miracle stories found in texts ranging from religious classics to contemporary literary fiction Miracle stories are a genre of great importance for the study of women's religious inheritance and for the historical and cultural understanding of women as makers of faith Miracle stories are very generally speaking more open to popular religion and culture than for instance doctrinal and official ecclesiastical texts and as such they can be of special interest to the study of women's lives and religious aspirations Remarkably up till now this genre has not been looked at from this point of view This book aims to open this field for further research by presenting case studies from diverse angles and disciplines Some of the questions this book tries to answer are What do miracle stories specifically tell us about women Are there some types of miracles that are in particular related to certain groups of women What do these stories tell us about women as performers and or subjects of miracles What can be said about the social function and religious meaning of miracles by specifically looking at the way certain groups of women are practising and experiencing miracles By including research on miracle stories in contemporary fiction written by women this book also wants to acknowledge and research the disputed status of miracles as well of women in our present society which is moving from modernity to post modernity Please note that *Women and Miracle Stories* is previously published by Brill in hardback ISBN 90 04 16681 8 still available
