Handbook of Artificial Intelligence in Higher Education Stefan Popenici, Jürgen Rudolph, Fadhl Ismail, Shannon Tan, 2025-12-16 This timely Handbook highlights the practical challenges and ethical considerations surrounding artificial intelligence AI in higher education. An international array of experts pair empirical research with real world examples of AI implementation in teaching, learning, assessment and administration

Digital Management and Artificial Intelligence

Richard C. Geibel, 2025 Zusammenfassung This book presents selected contributions from the Fourth International Scientific Practical Conference ISPC 2024 held on October 10-11 2024 organized by IU International University East European University Adelphi University and the E Commerce Institute with contributions from Asia, Africa, Europe and the USA. It discusses the challenges and opportunities of digital transformation and AI in different industries and introduces advanced research and solutions from both academic and professional perspectives. The topics covered include artificial intelligence, digitalization in healthcare, legal systems, corporate responsibility, e-commerce, digital entrepreneurship and digital transformation in education. One key topic is social commerce including live shopping as a blend of social media and e-commerce. The interaction between digitalization and sustainability is also explored. The growing influence of artificial intelligence in the financial sector is examined as well. Additionally, investigations into the impact of digitalization on the education sector and the labor market are included. All studies focus on the unique opportunities presented by digitalization and describe how these new potentials can be translated into concrete benefits. The book is an engaging read for researchers and professionals interested in digital management, one of the most significant developments of recent times.

teaching information literacy at all levels. Although written with school librarians in mind the book can be easily adapted by teachers, school administrators and even public librarians who are looking to incorporate information literacy elements in their daily practices. The book challenges the reader to rethink what they know about digital or tech literacy, breaks some stereotypical concepts about multicultural literacy and highlights the importance of literacies even in adulthood.

Emerging Trends in Computer Science and Its Application Anurag Tiwari, Manuj Darbari, 2025-04-08. The conference brought together a diverse group of scholars, researchers and industry professionals to engage in meaningful discussions and share insights on cutting edge trends in artificial intelligence, machine learning, data science and their multifaceted applications. This collaboration and knowledge exchange fostered an environment of innovation, making the conference a successful and impactful event for all participants. It aimed to highlight these significant advancements and serve as a valuable resource for researchers, academicians and practitioners who wish to stay informed about the recent innovations and methodologies shaping the landscape of computational intelligence. By showcasing a wide range of research topics and practical implementations, it not only addressed the current challenges but also inspired new ideas and approaches for future research.

Advances in Fashion and Design Research III Joana Cunha, Ana Cristina Broega, Helder Carvalho, Bernardo Providência, 2025-02-27. This book offers a multidisciplinary perspective on research and developments at the interface between industrial design, textile engineering and fashion. It covers advances in fashion and product design and in textile production alike, reporting on sustainable industrial procedures, ergonomics research and practices, new materials and circular design, as well as issues in marketing, communication and education. A special emphasis is given to the theme of fashion's cultural and productive landscapes and to sustainable strategies in design. Gathering the proceedings of the 7th International Fashion and Design Congress CIMODE 2024 held on November 11-13 2024 in Caserta, Italy, this book offers extensive information and a source of inspiration to both researchers and professionals in the field of fashion design, engineering, communication as well as education.
