 Dawei Zhao,Wenting Zhang,2021-10-27 This book starts from the application scenarios of artificial financial intelligence  
 regulation commercial banking wealth management and payments etc and makes a detailed study of the main scenarios of  
 the application of China s artificial intelligence in the financial field and also analysis specific application cases of China With  
 the popularization of smart phones and the rapid development of e commerce mobile payment big data and other  
 technologies are in the ascendant in China in recent years In particular artificial intelligence technologies in the form of  
 facial speech and semantic recognition are showing preliminary advantages in the field of FinTech and the future era of  
 Intelligent Finance has quietly come The Chinese government has clearly put forward China should rely on a robust cycle of  
 domestic demand and innovation as the main driver of the economy while maintaining foreign markets and investors as a  
 second engine of growth science and technology innovation is the basic motivation of economic and social cycle to implement  
 the dual circulation strategy it is necessary to understand the key role of scientific and technological innovation in financial  
 innovation services and improve financial services must be driven by science and technology There is a natural relationship  
 between artificial intelligence and financial services because financial services are credit and information intermediaries and  
 data is the most critical for finance while artificial intelligence has a super ability in dealing with complex data At present  
 many Chinese Banks have applied artificial intelligence to their daily operations and management such as accurate customer  
 identification enhanced process tracking intelligent marketing and product process transformation so as to simplify financial  
 service processes and shorten service cycles In General this book both pays attention to practical application and theoretical  
 which is a useful reference book in theoretical research and practical work and also helps readers to understand the  
 application of intelligent finance in China **Multilingual Computing** ,1994 **Digital and Social Media Marketing**
