Early Access Deals Tax Bracket Update:

Congressional Record United States. Congress,1999 **Implementing an Inclusive and Equitable Pension Reform**
Cheolsu Kim,2012 India is ageing One response of Indian policy makers has been introduction of the New Pension Scheme
NPS a defined contribution pension scheme which is mandatory for civil servants and voluntary for the rest of the population
Given the size of the target population even if take up is modest NPS savings may soon provide huge amounts of capital to
India s economy However challenges are abound What governance structure will best achieve the ultimate policy goal of
serving the needs of savers What business processes and information technology design will serve members best How
effectively will the NPS attack the problem of old age poverty In this book a multi disciplinary international team comprising
of economists lawyers pension management experts and capital market experts explore these and other questions The book
proposes significant legal regulatory and governance reforms for the NPS and other existing pension schemes as well It finds
that current NPS business practices cannot keep pace with potential growth of the system and makes suggestions on how to
take better advantage of information technology Based on review of experience elsewhere and state of the art economic
demographic modelling it warns that the NPS in its current form does not address the retirement income needs of the
lifelong very poor suggesting that it is only one in a range of responses needed to cope with the challenges of population
