## **Facebook Nation** Newton Lee, 2012-09-15

President Barack Obama in his 2011 State of the Union Address called America the nation of Edison and the Wright brothers and of Google and Facebook U S Chief Information Officer Steven VanRoekel said that America has become a Facebook nation that demands increased transparency and interactivity from the federal government Facebook as a nation in 2012 would be the third largest country in the world with over 900 million citizens after China and India This book portrays the social media ecosystem as a world of increasing Total Information Awareness which is essentially a civilian version of the controversial Total Information Awareness program unveiled in 2002 by the Defense Advanced Research Projects Agency DARPA at the U S Department of Defense Back in the 60's DARPA initiated and funded the research and development of Advanced Research Projects Agency Network ARPANET that went online in 1969 The success of ARPANET gave rise to the global commercial Internet in the 90's and the new generation of Fortune 500 companies today including Amazon.com Google eBay and Yahoo As if life comes full circle in the 21st century private businesses and the ubiquity of social networks such as Facebook Google Twitter and YouTube are creating the technologies and infrastructures necessary for the DARPA proposed Total Information Awareness program WikiLeaks founder Julian Assange called Facebook the most appalling spying machine that has ever

been invented. Indeed military and civilian technologies have interwoven into every fabric of our society as Facebook co-founder and CEO Mark Zuckerberg said. We exist at the intersection of technology and social issues. This book offers discourse and practical advice on the privacy issue in the age of big data, the rise of Facebook nation and Total Information Awareness. Opening with President Ronald Reagan's 1984 National Security Decision Directive and ending with George Orwell's novel 1984, the author takes us on a roller coaster ride through Facebook's botched IPO, Carrier IQ, Kony 2012, SOPA, PIPA, blackout, cyber bullying, crime fighting and a host of other timely issues facing our Facebook nation. Social media strategists, information architects, social scientists, policymakers and academic scholars in the Program in Science, Technology and Society (STS) will find this book a valuable asset.

**Media Literacy in Action** Renee Hobbs, 2024-10-14

There's never been a more important time for students to develop media literacy competencies. When students ask critical questions about the media they consume, they develop fundamental knowledge and critical thinking skills that prepare them for life, work and meaningful citizenship. *Media Literacy in Action* addresses learners who are simultaneously active as both creators and consumers of media messages. At the same time, the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide. To thrive in a media-saturated society, people need to ask critical questions about what we watch, see, listen to, read and use. This book gives students those tools. Key features of the second edition:

- Critical examination of AI technologies, algorithmic personalization, data privacy and surveillance, and the increased global regulation of digital platforms.
- Attention to media literacy for empowerment and protection.
- Inquiry-oriented approach to learning that cultivates intellectual curiosity and creative expression.
- Full color presentation with figures and photos to increase student engagement.
- Each chapter includes Media Literacy Trailblazers Profiles of key thinkers and their theories, connect students with the discipline of media literacy.
- Media Literacy DISCourse NEW: Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples.
- Learning in Action NEW: Summary and vocabulary sections combine with Analyze, Create, Reflect and Act activities to empower students to apply ideas from each chapter.
- Supplemental Materials available at [www.mlaction.com](http://www.mlaction.com): Students can review key ideas, learn about more Media Literacy Trailblazers, and watch videos aligned with each chapter.
- Instructors can access a Teacher's Guide of best practices in class activities, homework and projects.
- Also available are chapter summaries, lecture slides, YouTube playlists and test materials.
