*Probabilistic Machine Learning* Kevin P. Murphy,2023-08-15 An advanced book for researchers and graduate students working in machine learning and statistics who want to learn about deep learning, Bayesian inference, generative models and decision making under uncertainty.

An advanced counterpart to *Probabilistic Machine Learning: An Introduction*, this high-level textbook provides researchers and graduate students detailed coverage of cutting-edge topics in machine learning, including deep generative modeling, graphical models, Bayesian inference, reinforcement learning and causality. This volume puts deep learning into a larger statistical context and unifies approaches based on deep learning with ones based on probabilistic modeling and inference. With contributions from top scientists and domain experts from places such as Google DeepMind, Amazon, Purdue University, NYU and the University of Washington, this rigorous book is essential to understanding the vital issues in machine learning. Covers generation of high-dimensional outputs such as images, text and graphs. Discusses methods for discovering insights about data based on latent variable models. Considers training and testing under different distributions. Explores how to use probabilistic models and inference for causal inference and decision making. Features online Python code accompaniment.

## **Design in Motion**

Penny Hilton,2020-02-13 With an abundance of information on how to create motion graphics already available, *Design in Motion* focuses on the why of moving image and less about the how. By unpacking the reasons behind screen designer's production choices, each chapter deconstructs examples of motion graphics by drawing on case studies of both familiar examples from contemporary cinema and unseen work from postgraduate motion graphic designers. It examines the value of image, text, motion, camera and transitions, explaining in detail why some methods work while others fail. Whether you work in info graphics, documentary or design, this book is structured to follow the production process and together with its multimedia
