Analytical Perspectives on Text Analysis Olga Dontcheva-Navratilova, Renata Povolná, 2026-01-01 This book adopts various newly emerged and established approaches to text analysis, including pragmatics, discourse analysis, cognitive linguistics, corpus linguistics, ethnography, and artificial intelligence, to explore multilayered meaning making in text and discourse. The eight parts of the book analyse various discourses: academic, media, political, business, fiction, and advertising, to study gender stereotyping, hate speech, political manipulation, direct speech in fiction, constructions in context, metadiscourse, modality, rhetorical moves, and the role of artificial intelligence in academic discourse. The aim is to enrich the reader's understanding of text analysis by looking beyond the surface of the text and revealing how language constructs reflects and models social relations, expresses values and beliefs, and mediates social interaction. The book's original contribution is the integration of traditional and emerging methods.
