surveyed are deeply worried about the direction in which our consumption obsessed society is moving. They believe people have become both physically and mentally lazy and that as a society we have lost sight of what truly matters. Two thirds believe they would be better off if they lived more simply and a quarter say they would be happier if they owned fewer things. Half of Americans surveyed are deriving a sense of satisfaction from reducing their purchases during the downturn and three quarters are feeling good about cutting back on the amount of waste they create. A majority of Americans have no intention of going back to their old shopping patterns even when the economy rebounds. Now as the consumer voice signals its changed priorities forward thinking companies are responding by rejecting excess and artificiality in favor of products and communications that offer authenticity substance and interconnectedness all values today's more mindful consumer craves. In this book the brand experts look at corporations as diverse as Glenmorangie and Wal Mart to see what lessons they can offer to businesses attempting to grow in the postconsumerism era. They also spoke with corporate leaders in a variety of industries to learn how they are recasting their businesses and brands in order to prepare for the changes ahead. Through cutting edge research and a sharp look at new industry models Consumed provides real direction for marketers and managers.

The Venture Alchemists Rob Lalka, 2024-05-14 Gold Medalist 2025 Axiom Business Book Awards Business Ethics Future Trends category Shortlist 2024 Best in Business Book Awards Society for Advancing Business Editing and Writing We once idolized tech entrepreneurs for creating innovations that seemed like modern miracles. Yet our faith has been shattered. We now blame them for spreading lies breaking laws and causing chaos. Yesterday's Silicon Valley darlings have become today's Big Tech villains. Which is it? Are they superheroes or scoundrels? Or is it more complicated some blend of both? In The Venture Alchemists Rob Lalka demystifies how tech entrepreneurs built empires that made trillions. Meta started as a cruel Halloween prank. Alphabet began as a master's thesis that warned against corporate deception and Palantir came from a campus controversy over hateful speech. These largely forgotten origin stories show how ordinary fears and youthful ambitions shaped their ventures making each tech tale relatable both wonderfully and tragically human. Readers learn about the adversities tech entrepreneurs overcame the troubling tradeoffs they made and the tremendous power they now wield. Using leaked documents and previously unpublished archival material Lalka takes readers inside Big Tech's worst exploitations and abuses alongside many good intentions and moral compromises. But this story remains unfinished and The Venture Alchemists ultimately offers hope from the people who decades ago warned about the risks of the emerging Internet. Their insights illuminate a path toward more responsible innovations so that technologies aren't dangerous weapons but valuable tools that ensure progress improve society and enhance our daily lives.
