

Practising Phonics

If your child is learning physics at school, you might want to support them at home but feel unsure of what to do.

My right to life and my right to life's companionship in the right persons is less than that of my right to life and my right to life's companionship in the right persons. My right to life and my right to life's companionship in the right persons is less than that of my right to life and my right to life's companionship in the right persons.

If you are not sure what your children's learning has been about, you may prefer to ask your child to prepare a presentation or write a letter to you about it. They will have to think about the **learning objectives** and also consider what to do if they do not understand the content.

the power of the metaphor. While it may not get us quite as far as we need, it's a start. Learning the processes that give things meaning is learning. It's the first step to being able to think in terms of causal processes and doing useful things, since that word will play out for a while. The other steps, however, the design steps, are more complex.

There's a tremendous gap between what's possible and what's actually being done. Most of what's being done is just trying to make things work and doing a lot of talking. The time has come when it's time to do something.
