*The Opinionated University* Brian Soucek, 2026-01-08 Why institutional neutrality is nothing but an illusion Can a university ever truly be neutral in today s social and political climate Pushing against the tide of universities increasingly pledging to stay neutral about contentious issues law professor Brian Soucek argues that their promises are doomed to fail universities can t help being opinionated In *The Opinionated University* Soucek shows that neutrality is a myth by taking a deep dive into several prominent campus controversies of the day including diversity equity and inclusion DEI efforts and restrictions on campus speech and protest Each issue requires universities to choose a side in what they do if not also in what they say In everything from curricular and admissions decisions to their response to outside rankings and their evaluation of faculty universities express the values at the heart of their mission Soucek argues that those pushing for neutrality are only preventing universities from standing up for their values whether in today s current moment of crisis or in periods of political calm Both timely and deeply engaging *The Opinionated University* calls on universities to dispense with neutrality as a governing principle and focus instead on what their mission should be and who should determine it
